Situating Sound And Rhythm:

Sound Worlds from the Body to the City Ariane Wilson, 2019-03-13 This volume reveals the extent to which aural perception influences our spatial awareness. Spanning various fields and practices from psychology to geography and from zoology to urban planning it covers a range of environments in which sounds contribute to forming our sense of space and place. The contributions gathered here lead from the mother's womb through the habitats of insects and owls to the resonating bodies of buildings and the city to artistic endeavours that aim to consciously reveal the spatiality of sound. In this progression the book demonstrates the profoundly constitutive role of hearing and listening at all stages of our biological and social development as well as the epistemological, phenomenological and emotional importance of sound in relation to our construction of space. As such it will appeal not only to architects, town planners and artists but also to the growing community of scientists and scholars intrigued by sonic issues. Differing from both quantitative acoustics and sound design its approach opens new perspectives on the sonic dimension and aural understanding of our environment by tracing analogies between a diversity of spaces formed when sound interacts with listening as a mode of attention.

The Art of Theatrical Sound Design Victoria Deiorio, 2018-09-20 Emphasising the artistry behind the decisions made by theatrical sound designers this guide is for anyone seeking to understand the nature of sound and how to apply it to the stage. Through tried and tested advice and lessons in practical application The Art of Theatrical Sound Design allows developing artists to apply psychology, physiology, sociology, anthropology and all aspects of sound phenomenology to theatrical sound design. Structured in three parts the book explores theoretically how human beings perceive the vibration of sound, offers exercises to develop support for storytelling by creating an emotional journey for the audience, considers how to collaborate and communicate as a theatre artist and discusses how to create a cohesive sound design for the stage.

Geographies of Rhythm Tim Edensor, 2016-04-15 In Rhythmanalysis Henri Lefebvre put forward his ideas on the relationship between time and space, particularly how rhythms characterize space. Here leading geographers advance and expand on Lefebvre's theories, examining how they intersect with current theoretical and political concerns within the social sciences. In terms of geography, rhythmanalysis highlights tensions between repetition and innovation, between the need for consistency and the need for disruption. These tensions reveal the ways in which social time is managed to ensure a measure of stability through the instantiation of temporal norms, whilst at the same time showing how this is often challenged. In looking at the rhythms of geographies and drawing upon a wide range of geographical contexts this book explores the ordering of different rhythms according to four main themes: rhythms of nature, rhythms of everyday life, rhythms of mobility and the official and routine rhythms which superimpose themselves on the multiple rhythms of the body.

Sonic Interventions Sylvia Mieszkowski, Joy Smith, Marijke de Valck, 2015-07-14 Sonic Interventions makes a compelling case for the importance of sound in theorizing literature subjectivity and culture Sound is usually understood as our second sense and as our belief in a visually dominated culture prevails remains of secondary interest Western cultures are considered to be predominantly visual while other societies are thought to place more importance on the acoustic dimension This volume questions these assumptions by examining how sound differs from and acts in relationship to the visual It moves beyond theoretical dichotomies between the visual and the sonic the oral and literature and instead investigates sonic interventions in their often multi faceted forms The case studies deal with political appropriations of music and sounds they explore the poetic use of the sonic in novels and plays they develop theoretical concepts out of sonic phenomena and pertain to identity formation and the practice of mixing in hip hop opera and dancehall sessions Ultimately the book brings to the fore what roles sound may play for the formation of gendered identity for the stabilization or questioning of race as a social category and the conception of place Their intricate interventions beckon critical attention and offer rich material for cultural analysis

Sustaining Black Music and Culture during COVID-19 Niya Pickett Miller, 2021-09-30 Sustaining Black Music and Culture during COVID 19 Verzuz and Club Quarantine argues that Instagram is a premier digital leisure space to celebrate and promote Black American culture and identity particularly evidenced during the early days of the COVID 19 pandemic as the United States grappled with

mandated shelter in place orders Club Quarantine CQ and Verzuz emerged as highly successful Black music listening events streamed on Instagram Live collectively ushering Black techno culture through a once in a generation pandemic and beyond Contributors to this collection explore the communicative and cultural significance of these events as respite from social isolation and as a rearticulated space for Black cultural engagement in the midst of the COVID 19 pandemic and increased racial tensions in the United States

From Jim Crow to Jay-Z Miles White,2011-11-01 This multilayered study of the representation of black masculinity in musical and cultural performance takes aim at the reduction of African American male culture to stereotypes of deviance misogyny and excess Broadening the significance of hip hop culture by linking it to other expressive forms within popular culture Miles White examines how these representations have both encouraged the demonization of young black males in the United States and abroad and contributed to the construction of their identities From Jim Crow to Jay Z traces black male representations to

chattel slavery and American minstrelsy as early examples of fetishization and commodification of black male subjectivity Continuing with diverse discussions including black action films heavyweight prizefighting Elvis Presley's performance of blackness and white rappers such as Vanilla Ice and Eminem White establishes a sophisticated framework for interpreting and critiquing black masculinity in hip hop music and culture Arguing that black music has undeniably shaped American popular culture and that hip hop tropes have exerted a defining influence on young male aspirations and behavior White draws a critical link between the body musical sound and the construction of identity *Indian Books in Print*, 2003

Categorizing Sound David Brackett, 2016-07-19 Categorizing Sound addresses the relationship between categories of music and categories of people in other words how do particular ways of organizing sound become integral parts of whom we perceive ourselves to be and of how we feel connected to some people and disconnected from others After an introduction that discusses the key theoretical concepts to be deployed Categorizing Sound presents a series of case studies that range from foreign music race music and old time music in the 1920s up through country and rhythm and blues in the 1980s Each chapter focuses not so much on the musical contents of these genres as on the process of gentrification through which these categories are produced Provided by publisher *Situating Sound and Rhythm* T. an attempt is made to gauge the distance between aesthetics nurtured by tradition and aesthetics demanded by external and varying climates of emotional response It is hoped that the book would cater to the needs of the lovers of music performing artistes and aspirants endeavoring to climb the ladder **Situated Listening** Stephanie Loveless, Tullis Rennie, Morten Søndergaard, Freya Zinovieff, 2025-06-04 Grounded in a conviction that how we listen matters deeply in the context of

ongoing social political and ecological crises Situated Listening Attending to the Unheard sets forth a collection of methodologies and creative proposals for listening advancing the framework of situated listening as both a theoretical concept and a methodological practice that investigates relationships between the listening body and the politics of place space and culture Drawing from an array of scholarship that engages sound studies broadly this 15 chapter book is written entirely collaboratively and from a multidisciplinary perspective Each section includes scores for situated listening which take the form of diagrams instructions exercises images and meditations The scores offer alternate modes of sharing the central ideas of the associated chapters inviting the reader to shift from theory into practice This book contributes to decolonial feminist anti racist and anti capitalist scholarship in the field of sound studies by centering listening as a relational practice This book brings together a roster of accomplished international contributors making it essential supplementary reading for advanced undergraduates and researchers in sound studies It will be of interest to faculty and students in the fields of Sound Studies Music Feminist Science and Technology Studies Urban Design and Sound Art **Translation and**

Style in the Old Greek Psalter Jennifer Brown Jones, 2021-11-15 While some describe the Greek Psalter as a slavish or interlinear translation with dreadfully poor poetry how would its original audience have described it Positioning the

translation within the developing corpus of Jewish Greek literature Jones analyzes the Psalter's style based on the textual models and literary strategies available to its translator She demonstrates that the translator both respects the integrity of his source and displays a sensitivity to his translation's performative aspects By adopting recognizable and acceptable Jewish Greek literary conventions the translator ultimately creates a text that can function independently and be read aloud or performed in the Jewish Greek community

The Sound of Vultures' Wings Jeffrey W. Cupchik, 2024-02-01 The Sound of Vultures Wings offers the first in depth exploration of the music of the Tibetan Chöd tradition which is based on the liturgical song poems of the twelfth century Tibetan female ascetic Machik Labdrön 1055-1153 Chöd is a musical meditative Vajrayāna method for cutting off the root of suffering namely egoic identification with the body or the belief that the I is the locus of the self Chöd is regarded by many Tibetan Lamas as one of the most effective Buddhist practices for spiritual and social transformation Jeffrey W Cupchik details the significance of the complex interwoven performative aspects of this meditative ritual and explains how its practice can bring about experiences of insight and inner transformation In doing so he undoes the notion of meditation as exclusively an experience of silence and stillness

What is Rhythmanalysis? Dawn Lyon, 2018-11-15 This book is available as open access through the Bloomsbury Open Access programme and is available on www.bloomsburycollections.com In recent years there has been growing interest in Henri Lefebvre's posthumously published volume Rhythmanalysis For Lefebvre and subsequent scholars rhythmanalysis is a research strategy which offers a means of thinking space and time together in the study of everyday life and this remains its strength and appeal What is Rhythmanalysis addresses the task of how to do rhythmanalysis It discusses the history and development of rhythmanalysis from Lefebvre to the present day in a range of fields including cultural history and studies of place work and nature For Lefebvre it is necessary to be grasped by a rhythm at a bodily level in order to grasp it And yet we also need critical distance to fully understand it Rhythmanalysis is therefore both corporeal and conceptual This book considers how the body is directly deployed as a research tool in rhythmanalytical

research as well as how audio visual methods can get at rhythm beyond the capacity of the senses to perceive it In particular the book includes detailed discussion of research on different forms of mobility from driving to dancing and on the social life of markets from finance to fish Dawn Lyon highlights the gains limitations and lively potential of rhythm analysis for spatially temporally and sensually attuned practices of research This engaging text will be of interest to students and researchers in sociology criminology socio legal studies geography urban studies architecture anthropology economics and cultural studies
