Fragments: The Existential Situation of Our Time David

Tracy, 2020-04-10 Even as mere fragments these essays are an imaginatively learned feast for virtually anyone interested in modern theologies. Modern Theology. David Tracy is widely considered one of the most important religious thinkers in North America known for his pluralistic vision and disciplinary breadth. His first book in more than twenty years reflects Tracy's range and erudition, collecting essays from the 1980s to 2018 into a two-volume work that will be greeted with joy by his admirers and praise from new readers. In the first volume, *Fragments*, Tracy gathers his most important essays on broad theological questions, beginning with the problem of suffering across Greek tragedy, Christianity, and Buddhism. The volume goes on to address the Infinite and the many attempts to categorize and name it by Plato, Aristotle, Rilke, Heidegger, and others. In the remaining essays, he reflects on questions of the invisible, contemplation, hermeneutics, and public theology. Throughout, Tracy evokes the potential of fragments understood both as concepts and events to shatter closed systems and open us to difference and Infinity. Covering science, literature, philosophy, psychoanalysis, and non-Western religious traditions, Tracy provides in *Fragments* a guide for any open reader to rethink our fragmenting contemporary culture. Tracy demonstrates the range of his philosophical interests in service of theology, particularly his profound attention to hermeneutics. A rich feast. We can be grateful for the insightful essays collected in this volume from one of America's leading theologians. *Currents in Theology and Mission*. *An Introduction to Poetry for Students of English Literature*. Experimentation and the Lyric in Contemporary French Poetry Jeff Barda, 2019-10-17

Experimentation and the Lyric in Contemporary French Poetry offers a new theoretical approach and historical perspective on the remarkable upsurge in creative poetic practices in France that have challenged traditional definitions of poetry and of the lyric. Focusing on the work of Pierre Alferi, Olivier Cadiot, Emmanuel Hocquard, Franck Leibovici, Anne Portugal, and Denis Roche, this book provides an analysis of the most influential poets in French poetry of the last few decades. It contextualizes the theoretical models that inform their investigations, analyzing them alongside the history of the avant-garde and the heated theoretical debates that have taken place over whether to continue or bring an end to the lyric. Systematically addressing the various strategies employed by these poets and drawing on reception theory and cognitive studies, Jeff Barda argues that French radical poetics re-evaluates the lyric in cognitive terms beyond the personal. This book is essential reading for anyone interested in twenty-first-century forms of experimental writing and the connections between literature and the arts today. *Realism and Relativism*. Robert Lawrence Heath, 1986. *The Poetry Journal*, 1914. *The Libertarian: a Southern Magazine Upholding the Principles of Liberty*, 1923.
