This volume offers 11 case studies of contemporary movements from around the world where religious secular and spiritual dynamics interplay in the postmodern condition of the 21st century as traditional and contemporary sources are combined in new and dynamic ways **Transforming Enterprise?** Andrew Yancey, 2020-03-25 How does Christian faith integrate with capitalism This question has been at the heart of Christian ethics for more than three hundred years but rarely as complex and important as now The polarizing influence of consumer capitalism has extended into virtually every domain of human life On the one hand capitalism has contributed to increases in standards of living and life expectancy especially among those in extreme poverty On the other it has exacerbated income inequality environmental damages and social displacement For contemporary American evangelical theology this is problematic It has long been on a quest to show that Christian faith harmonizes with capitalistic enterprise But can faith harness the transformational power of consumer capitalism without being affected by its excesses For many the election of Donald Trump as president has revealed a great divide within American evangelicalism about the links between Christianity economic power and moral character Working from the field of academic practical theology in interdisciplinary dialogue with business management ethics *Transforming Enterprise* shows why and how a reframing of the relationship between Christian faith and capitalistic enterprise is needed in the contemporary postsecular milieu **The Gendered Society** Michael S. Kimmel, 2017 The sixth edition of *The Gendered Society* explores current thinking about gender both inside academia and in our everyday lives Michael Kimmel challenges the claim that gender is limited to women's experiences his compelling and balanced study of gender includes both masculine and feminine perspectives Kimmel makes three bold and persuasive statements about gender First he demonstrates that gender differences are often extremely exaggerated in fact he argues that men and women have much more in common than we think they do Kimmel also challenges the pop psychologists who suggest that gender difference is the cause of inequality between the sexes instead he reveals that the reverse is true gender inequality itself is the cause of the differences between men and women Finally he illustrates that gender is not merely an element of individual identity but a socially constructed institutional phenomenon **Society Without God** Phil Zuckerman, 2010-06-07 Are lawyers by their

very nature agents of the state of capital of institutions of power Or are there ways in which they can work constructively or transformatively for the disempowered the working class the underprivileged *Lawyers in a Postmodern World* explores how lawyers actively create the forms of power which they and others deploy Through engaging case studies the book examines

how lawyers work within and for powerful institutions and provides suggestions both general and practical for ways in which the practice of law can be made to work with and for the powerless Individuals chapters address such subjects as the contradictions of radical law practice legal work in South Africa the economics and politics of negotiating justice feminist legal scholarship and women s gendered lives the overlapping worlds of law business and politics theories of legal practice and how lawyers are constitutive of gender relations Contributing to the book are Maureen Cain University of West Indies Yves Dezalay Centre National de la Recherche Scientifique France Martha Fineman Columbia University Sue Lees University of North London Doreen McBarnet Wolfson College Oxford Frank Munger SUNY Buffalo Wilfried Scharf University of Cape Town Stuart Scheingold University of Washington David Sugarman Lancaster University and Sally Wheeler University of Nottingham

religious flows within their own imaginations and for their own parochial uses *Islam: Global Christian Perspectives* Wageeh Mikhail,2024-07-30 There are hundreds of books on Islam after all it is the second largest religion on the planet Few however are the books written by Christian scholars of Islam who live and work in Muslim majority countries Here lies the value of this current volume It addresses Islam Islamic history Islamic theology and Christian Muslim relations from global Christian perspectives where contributors describe experiences and narratives of conversations obstacles cohabitation understanding and cooperative efforts between Christians and Muslims in a variety of Middle Eastern African and Asian nations including Egypt Ghana India Jordan Lebanon and Nigeria This book treats Islam academically and from a Christian standpoint Authors discuss historical interactions between Christians and Muslims and where relevant current avenues for work for the common good The Christian Right & US Foreign Policy in the 21 st Century Mohd Afandi Salleh,2020-01-07 This book is about the role of the Christian Right in the US foreign policy decision making process It reveals that the Christian Right has long been fascinated with some international issues in general and US foreign policy in particular The interest of the movement in international issues increased markedly during the George W Bush administration 2000 2009 During this period the movement successfully widened its activism from domestic social conservative issues to foreign policy issues by participating in articulating and lobbying for its religious version of American foreign policy In assessing the role of the Christian Right in US foreign policy making this dissertation examines aspects of US foreign policy namely Israel international religious freedom and global humanitarianism Based on these three aspects the Christian Right is seen as skilled in framing and defining issues The Christian Right seems effective in selecting and prioritizing international issues that have a reasonable chance of being picked up on by foreign policy decision makers especially in Congress Moreover the Christian Right has shown its maturity in seeking engagement and cooperation with other organizations regardless of whether they are secular or religious to advance its international goals Finally in pursuing and conveying its international agenda the Christian Right has adopted a more moderate and mundane approach Instead of using its traditional religious rhetoric the Christian Right has successfully projected its foreign policy preferences into the conventional realist discourse of American foreign policy that was largely based on the objective of national interest and national security **Healthy Lifestyle** Courtney O.
