Urban Sociology William G. Flanagan,2010-01-16 The fifth edition of this text presents a balanced review of the ecological arguments that the urban arena produces unique experiential and urban based cultural effects while exploring the broader political and economic contexts that produce and modify the urban environment In addition to examining the urban dimensions of such topics as community formation and continuity minority and majority dynamics ethnic experience poverty power and crime it provides an analysis of the spatial distribution of population and resources with regard to the metropolitanization of the urban form and the interaction between urban concentration and development and underdevelopment From a first chapter that begins with a discussion of some of the more micrological features of the urban experience the text focuses on the significance of the more macrological cultural social organizational and political dimensions of urban change in an historical span that includes the first cities and concludes with an exploration of the implications of cyberspace transnationalism and global

terrorism for the future of urban sociology While the work focuses primarily on the North American case its analytical and integrated discussion makes it applicable to urban societies in general

The Organization of Cities John R Miron, 2017-01-20 This book focuses on the relationship between the state and economy in the development of cities It reviews and reinterprets fundamental theoretical models that explain how the operation of markets in equilibrium shapes the scale and organization of the commercial city in a mixed market economy within a liberal state These models link markets for the factors of production markets for investment and fixed capital formation markets for transportation and markets for exports in equilibrium both within the urban economy and the rest of the world In each case the model explains the urban economy by revealing how assumptions about causes and structures lead to predictions about scale and organization outcomes By simplifying and contrasting these models this book proposes another interpretation that governance and the urban economy are outcomes negotiated by political actors motivated by competing notions of commonwealth and the individual desire for wealth and power The book grounds its analysis in economic history explaining the rise of commercial cities and the emergence of the urban economy It then turns to factors of production export and factor markets introducing and parsing the Mills model breaking it down into its component parts and creating a series of simpler models that can better explain the significance of each economic assumption Simplified models are also presented for real estate and fixed capital investment markets transportation and land use planning The book concludes with a discussion of linear programming and the Herbert Stevens and the Ripper Varaiya models A fresh presentation of the theories behind urban economics this book emphasizes the links between state and economy and challenges the reader to see its theories in a new light As such this book will be of interest to scholars students and practitioners of economics public policy public administration urban policy and city and urban planning

Cities and Urban Cultures Deborah Stevenson, 2003-04-16 What is distinctive about urban life What key trends have shaped the contemporary city How have the city and urban cultures been explained by sociology and cultural studies This is the first book to explore cities and urban life from the perspectives of both sociology and cultural theory Through an interdisciplinary approach and use of case material the book demonstrates that the real city of physicality and struggle and the imagined city of representations are entwined in the construction of urban cultures Starting with a comparison of the rural and the urban the book considers ways of imagining the city and of conceptualising urban cultures It goes on to investigate the implications of several pivotal urban and cultural trends such as the use of the arts and local cultures in city re imaging and the ways in which modernism postmodernism and globalisation have shaped the built environment and the orientation of academic enquiry Also examined is the way in which representations of the urban landscape in film literature art and popular texts have informed dominant ideas about the way certain city spaces including city centres urban waterfronts and so called global cities should look function and feel Designed as a text for undergraduate courses in cultural studies sociology and wider social science this book traces the development of urban environments from

the nineteenth century to the present and illuminates the nature of urban life Globalizing Cities Mark

Abrahamson,2019-09-20 Globalization has been built upon and maintained by major urban centers As the interconnections among these cities grow more cities become involved as important global nodes and globalization has an extremely strong influence upon the forms and functions of cities everywhere This new textbook examines modern cities worldwide through two lenses as the major nodes in the global economy and as primary propagators of cultural ideas across the world Exploring the ramifications of the continuing penetration of global forces into smaller urban areas this book clearly distinguishes economic cultural and political processes to demonstrate how global attachments are shaping many of the basic features of modern cities Specifically the book examines the way cities accommodate huge global flows of people including migrants tourists and the managers of multi national firms and the effects this has upon the cultural economic and political forces associated with globalization in cities The main features of the book include a balanced emphasis upon how economic technological and cultural forces shape both urban and global developments a highly interdisciplinary focus incorporating major works and ideas from urban scholars writing in sociology geography anthropology and politics detailed case studies of events and activities within specific cities and regions that illuminate major trends end of chapter reading lists of corresponding chapters in The Globalizing Cities Reader second edition edited by Xuefei Ren and Roger Keil and published by Routledge in 2018 Written in a clear and accessible style Globalizing Cities A Brief Introduction will appeal to advanced undergraduate and postgraduate students in both urban and globalization courses within sociology geography and urban studies

Unhealthy Cities Kevin Fitzpatrick,Mark LaGory,2013-06-17 The purpose of this book is to show the important role that space and place plays in the health of urban residents particularly those living in high poverty ghettos The book brings together research and writing from a variety of disciplines to demonstrate the health costs of being poor in America s cities Both authors are committed to raising awareness of structural factors that promote poverty and injustice in a society that proclaims its commitment to equality of opportunity Our health is often dramatically affected by where we live some parts of the city seem to be designed to make people sick The book is intended for students and professionals in urban sociology medical sociology public health and community planning **Studying Cities and City Life** Mark

Abrahamson,2016-12-08 Studying Cities and City Life is a textbook designed to provide an introduction to the major methods of obtaining data for use when analysing cities and social life in cities Major chapters focus upon best practices in field studies participant observation natural experiments and quasi experiments surveys employing probability and non probability samples secondary analyses of previously published documents A separate chapter examines a full range of questionnaires and interviews Each chapter includes discussion of several case studies and recently published research employing the method being discussed This discussion highlights the issues and choices made by investigators in actual studies conducted in cities throughout the world This unique book is designed for use in research methods courses that primarily enroll

students majoring in Urban Sociology Urban Studies Urban Geography Urban Planning and related areas **Urban Sociology** Mark Abrahamson, 2014 Concise overview of the political and economic development of the world's cities with a cultural perspective and case studies throughout including support materials **Cities, Change, and Conflict** Nancy Kleniewski, Alexander R. Thomas, 2010-04-23 CITIES CHANGE AND CONFLICT A POLITICAL ECONOMY OF URBAN LIFE International Edition discusses the importance of cities for the economic cultural and political life of modern societies The authors consistently use the political economy perspective to introduce students to the basic concepts and research in urban sociology while also acknowledging the contributions of the human ecology perspective Through the use of case studies the presentation remains accessible and down to earth engaging the student in the material The City Max Weber, 1958 In this classic work Max Weber one of the founders of modern social science and the man characterized by Karl Jaspers as the philosopher of his age presents one of the most influential theories of urban life and development For the modern reader the study provides a perspective that brings greater understanding and dimension to today's urban problems housing transportation overcrowding and social disorganization Weber saw the city as a balanced self-restoring system of institutions that has played a basic role in the development of Western civilization He discusses the origins of cities and proceeds to show how and why this new way of urban life was fully developed Here is a work enlightened by keen insight and intellectual vigor from back cover **Writings on Cities** Henri Lefebvre, 1996-01-09 The work of Henri Lefebvre the only major French intellectual of the post-war period to give extensive consideration to the city and urban life received considerable attention among both academics and practitioners of the built environment following the publication in English of *The Production of Space* This new collection brings together for the first time in English Lefebvre's reflections on the city and urban life written over a span of some twenty years The selection of writings is contextualized by an introduction itself a significant contribution to the interpretation of Henri Lefebvre's work which places the material within the context of Lefebvre's intellectual and political life and times and raises pertinent issues as to their relevance for contemporary debates over such questions as the nature of urban reality the production of space and modernity *Writings on Cities* is of particular relevance to architects planners geographers and those interested in the philosophical and political understanding of contemporary life
