## **Sociology Of Communism:**

**The Sociology of British Communism** Kenneth Newton, 1969      **Sociology and Psychology of Communism** Jules Monnerot, 1960      After Communism Carol Harrington, Ayman Salem, Tamara Zurabishvili, 2004 Freed from direct political constraints many sociologists from former Communist countries have sought to maintain a clear distinction between research and politics through an attachment to objectivity conceptual clarity and methodological rigour Yet they have often sidestepped the critique of epistemological certainties which has become orthodoxy in much Western thinking and which has implicated sociology in the very structures of power it describes This collection of writings based on the 2002 Critical Sociology Conference held at Tbilisi State University in Georgia was produced by sociologists working as members of or visitors to post Communist states As such it reflects the tension between the desire for scholarly distance and an acknowledgement that the construction of knowledge is always a political act and a product of hierarchical social relations Whether considering the issue of political legitimacy in Kyrgyzstan the political nature of discourse about Eastern Europe or problems of institutionalisation in Georgia the authors all seek to avoid the scepticism about the effects and ethics of sociology common in much Western social theory without falling back upon the positivist approaches apparent in much of the former Communist bloc and in important pockets of Western academia      **The Many Faces of Socialism** Paul Hollander, 1983-01-01 Dealing with topics and perspectives generally neglected by American sociologists Hollander focuses on the nature of socialism and the reasons for Marxism's appeal among Western intellectuals In his new introduction to updated essays never before published in book form he also addresses issues of enduring interest in both socialist and pluralistic societies These include relationships between the private and the public techniques of social and political control the timeless tension between professed value and observed behavior and the way systems struggle for a sense of purpose in the contemporary world      The Socialist Industrial State David Lane, 2023-06-14 The Socialist Industrial State 1976 examines the state socialist system taking as the central example the Soviet Union where the goals and values of Marxism Leninism and the particular institutions the form of economy and polity were first adopted and developed It then considers the historical developments differences in culture the level of economic development and the political processes of different state socialist countries around the globe      **Marxism and Communism** Martin Krygier, 1994      *The Historiography of Communism* Michael E. Brown, 2009 In this fresh appraisal of communism and anti communism with an emphasis on the American case respected scholar Michael E Brown examines the methods controversies and difficulties involved in writing the history of communism Arguing that one important way of understanding communism other than as a concrete political or ideological force is as an expression of an essentially reflexive aspect of society that typically manifests itself in social movements In this regard Brown understands the history of communism as part of the history of society Examining works by E P Thompson Karl Marx and Pierre Clastres Brown develops the idea of history as an immanent feature of human activities

Taken together the essays in this book written over a period of 20 years offer a distinctive approach to the connections between social theory criticism and historiography and to what is social about social movements Crisis and Change Today Peter Knapp, Alan Spector, 2011-01-16 Crisis and Change Today provides a solid introduction to Marxist social theory The work's unique voice is expressed in its Socratic dialogic approach structured around forty questions that students have about society and social change Topics range from theories of history economics unemployment racial oppression the state fascism the collapse of the Soviet bloc and points of convergence and difference between the dialectical approach and other approaches to social science The content and tone of the work invites students to evaluate various traditional and current explanations of social institutions and social processes and encourages them to weigh the debates and investigate further The first edition was very well received Distinguished Scholarship Award of the Section on Marxist Sociology of the ASA and the second edition has been thoroughly revised and updated to be relevant for students today Though the first edition was written during the wake of the fall of the Berlin Wall and the collapse of the Soviet Union the growing gap between the rich and the poor and the economic crisis have generated more interest in using Marxist analysis both as a tool to analyze and understand capitalism and the weaknesses of past Marxist praxis **Communism, Conformity and Liberties** Ferdinand Tonnies, Samuel A. Stouffer, 2017-10-02 If there is a desert island book in the conduct of social research it is arguably this book Whether in terms of sociological structures or psychological nuances Communism Conformity and Civil Liberties originally published in 1955 is a recognized landmark Stouffer helped strengthen the fundamental liberties of all Americans by showing dangerous consequences of efforts to thwart a perceived Communist conspiracy including some of the very real liberties that can be destroyed in the process of a witch hunt Stouffer explores attitudes of Americans against a backdrop of a history of intolerance that dates back to the Know Nothing party before the Civil War and extending through the Ku Klux Klan after World War I The overall results show a markedly strong relationship between perception of high national risk and personal intolerance of differences and also the perception of threat and tolerance that operates as a predisposing tendency that affects judgments about specific political movements and events Stouffer enriches the sense and meaning of survey research by emphasizing patterns of percentages rather than actual amounts survey craftsmanship the use of paired sampling techniques to reduce problems of chance the importance of completion rates in survey research work the importance of interruptions during a questioning period the choice of field workers in performing the surveys The actual survey instruments are included as prepared by the National Opinion Research Center and the Gallup Organization They remain a model for large scale samples of this kind The beautiful highly personal introduction by James Davis places Stouffer in an appropriate academic and professional context Stouffer was a great sociologist with two landmark efforts to his credit The American Soldier and then Communism Conformity and Civil Liberties Professor Davis calls this a great classic of empirical sociology It is indeed that a model of craftsmanship exemplary argumentation and presentation of data still

unsurpassed The book is not part of ancient history but of living democratic culture      Social Theory and Postcommunism William Outhwaite, Larry Ray, 2008-04-15 Social Theory and Postcommunism undertakes a thorough study of the implications of post communism for sociological theory Written by two leading social theorists the book discusses the thesis that the fall of communism has decimated alternative conceptions of social organizations other than capitalism Analyzes the implications of the fall of communism on social theory Discusses alternative ideas of social organizations other than capitalism in the wake of the collapse of communism Covers state civil society globalization the future of modernity and post socialism      **Privilege in the Soviet Union** Mervyn Matthews, 2011-04-13 First published in 1978 this unique work throws much needed light upon the exact nature of privilege and elite life styles in the contemporary Soviet Union under the Communist regime Dr Matthews study places these life styles in a historical perspective and characterises in sociological terms the people who enjoyed them This study is based on an extensive programme of personal interviews among emigr groups and a close analysis of original and little known legal historical sources There are special sections on the nature of change in the Soviet elite and on social mobility This reissue will attract interest amongst students and scholars concerned with the history politics and sociology of the Soviet Union it will also be of value to all those concerned with the age old problem of social equality      **The Holocaust, Fascism and Memory** D. Stone, 2013-02-22 From interpretations of the Holocaust to fascist thought and anti fascists responses this book tackles topics which are rarely studied in conjunction This is a unique collection of essays on a wide variety of subjects which contributes to understanding the roots and consequences of mid twentieth century Europe s great catastrophe      **Radical Sociology of Durkheim and Mauss** Mike J. Gane, 2002-01-31 In this outstanding collection Mike Gane brings together a selection of key articles on Durkheim and Mauss showing their points of convergence and divergence Included here are Mauss s A sociological assessment of Bolshevism 1924 5 and his Letters on Communism Fascism and Nazism This is an engrossing book not only for scholars and students of Durkheim and Mauss but for anyone interested in radical social theory      Essays in Economic Sociology Max Weber, 1999-09-05 Economic sociologist and Weber scholar Richard Swedberg has in this volume selected essays from Weber s enormous body of writings on the subject of economic sociology The central themes of the anthology are modern capitalism and its relationships to politics law culture and religion      *Library of Congress Subject Headings* Library of Congress. Cataloging Policy and Support Office, 2007      Library of Congress Subject Headings Library of Congress, 1995      **A-E** Library of Congress. Office for Subject Cataloging Policy, 1990      *Library of Congress Subject Headings* Library of Congress. Office for Subject Cataloging Policy, 1990      *The Concise Encyclopedia of Sociology* George Ritzer, J. Michael Ryan, 2011-01-25 This concise encyclopedia is the most complete international survey of sociology ever created in one volume Contains over 800 entries from the whole breadth of the discipline Distilled from the highly regarded Blackwell Encyclopedia of Sociology with entries completely revised and updated to provide succinct and up to date coverage of the fundamental topics Global in scope both in terms of

topics and contributors Each entry includes references and suggestions for further reading Cross referencing allows easy movement around the volume      **Subject Headings Used in the Dictionary Catalogs of the Library of Congress [from 1897 Through June 1964]** Library of Congress.
