society and the State and any application of this science to the educational process must of necessity shift attention and emphasis from the individual to the needs of society in the large Training for the individual child will still be important in reality more important than ever before but in the light of that type of individual training which will offer the largest democratic opportunity for all and best prepare individuals for participation in and service to the State About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
