**2013** International Conference  
 on International Engineering

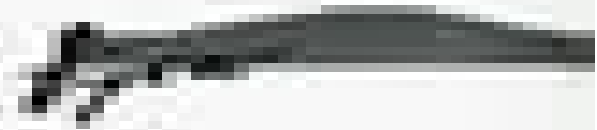

April 20-22, 2013, Kuala Lumpur, Malaysia

1. The first part of the paper discusses the importance of international engineering in the context of the global economy. It highlights the need for collaboration and knowledge sharing across different cultures and countries to drive innovation and economic growth.

2. The second part of the paper focuses on the challenges faced by international engineering projects. It discusses the complexities of managing diverse teams, navigating different legal and regulatory environments, and overcoming language barriers. The author provides practical advice on how to address these challenges effectively.

3. The third part of the paper explores the opportunities offered by international engineering. It discusses the potential for new markets, increased competition, and the ability to leverage global resources. The author emphasizes the importance of building strong relationships and networks in the international engineering community.

4. The final part of the paper concludes with a call to action, urging the international engineering community to work together to overcome challenges and seize opportunities. The author expresses optimism about the future of international engineering and the potential for a more global and interconnected world.
