Sol LeWitt's Studio Drawings in the Vecchia Torre Rye Dag

Holmboe, 2023-04-25 An intimate look at American artist Sol LeWitt's masterpiece of conceptual art drawn on the walls of a medieval tower in Italy In 1976 Sol LeWitt made a large group of pencil drawings on the internal walls of the Vecchia Torre a medieval tower in the Umbrian town of Spoleto Italy These fragile drawings made on walls that are susceptible to degradation have rarely been seen and never been documented yet they represent one of LeWitt's major works and a milestone in American conceptual art This groundbreaking volume brings together an extended essay on LeWitt's work by art historian Rye Dag Holmboe and a series of 60 photographic plates of the drawings by artist Joschi Herczeg giving readers an intimate experience of this singular site specific work A visual archive this book situates LeWitt's provisional material bodily and highly personal drawings in their historical biographical and theoretical contexts The result is nothing less than a reconsideration of LeWitt's lifework At once a work of conservation and a reflection on the relationship between drawing and architecture Sol LeWitt's Studio Drawings in the Vecchia Torre sheds new and welcome light on an unseen masterpiece

The Contingent Object of Contemporary Art Martha Buskirk, 2005-02-18 An exploration of transformations in the nature of the art object and artistic authorship in the last four decades In this book Martha Buskirk addresses the interesting fact that since the early 1960s almost anything can and has been called art Among other practices contemporary artists have employed mass produced elements impermanent materials and appropriated imagery have incorporated performance and video and have created works through instructions carried out by others Furthermore works of art that lack traditional signs of authenticity or permanence have been embraced by institutions long devoted to the original and the permanent Buskirk begins with questions of authorship raised by minimalists use of industrial materials and methods including competing claims of ownership and artistic authorship evident in conflicts over the right to fabricate artists works Examining recent examples of appropriation she finds precedents in pop art and the early twentieth century readymade and explores the intersection of contemporary artistic copying and the system of copyrights trademarks and brand names characteristic of other forms of commodity production She also investigates the ways that connections between work and context have transformed art and

institutional conventions the impact of new materials on definitions of medium the role of the document as both primary and secondary object and the significance of conceptually oriented performance work for the intersection of photography and the human body in contemporary art Buskirk explores how artists active in the 1980s and 1990s have recombined strategies of the art of the 1960s and 1970s She also shows how the mechanisms through which art is presented shape not only readings of the work but the work itself She uses her discussion of the readymade and conceptual art to explore broader issues of authorship reproduction context and temporality

Rewriting Conceptual Art Michael Newman, Jon Bird, 1999-12 An international movement that developed along separate but parallel lines in Europe and America during the 1970s Conceptual Art grew out of the legacy of Marcel Duchamp Aiming to completely redefine the relationships between the production definition and ownership of artworks and their various audiences Conceptual artists rejected traditional formats media and definitions Instead they chose to address some of the key issues underlying modern life and art These included the gulf between initial idea and finished work the value assigned works of art in modern economies the role of women and of feminine creativity in general the politics of exhibition organization in short the ways art and the art world have been defined for centuries Among the notable figures whose work is discussed in essays ranging from the evaluative to the theoretical are Judy Chicago Robert Morris Sol LeWitt Marcel Broodthaers and Mary Kelly The influence of Conceptual Art continues to be felt today in the work of such controversial young artists as Rachel Whiteread and Damien Hirst back cover

From Point to Pixel Meredith Hoy, 2017-01-03 In this fiercely ambitious study Meredith Anne Hoy

seeks to reestablish the very definitions of digital art and aesthetics in art history She begins by problematizing the notion of digital aesthetics tracing the nineteenth and twentieth century movements that sought to break art down into its constituent elements which in many ways predicted and paved the way for our acceptance of digital art Through a series of case studies Hoy questions the separation between analog and digital art and finds that while there may be sensual and experiential differences they fall within the same technological categories She also discusses computational art in which the sole act of creation is the building of a self generating algorithm The medium isn't the message what really matters is the degree to which the viewer can sense a creative hand in the art

American Artists Engage the Built Environment, 1960-1979

Susanneh Bieber, 2023-07-31 This volume reframes the development of US American avant garde art of the long 1960s from minimal and pop art to land art conceptual art site specific practices and feminist art in the context of contemporary architectural discourses Susanneh Bieber analyzes the work of seven major artists Donald Judd Robert Grosvenor Claes Oldenburg Robert Smithson Lawrence Weiner Gordon Matta Clark and Mary Miss who were closely associated with the formal aesthetic innovations of the period While these individual artists came to represent diverse movements Bieber argues that all of them were attracted to the field of architecture the work of architects engineers preservationists landscape designers and urban planners because they believed these practices more directly shaped the social and material spaces of everyday life This book's contribution to the field of art history is thus twofold First it shows that the avant garde of the long 1960s did not simply develop according to an internal logic of art but also as part of broader sociocultural discourses about buildings and cities Second it exemplifies a methodological synthesis between social art history and poststructural formalism that is foundational to understanding the role of art in the construction of a more just and egalitarian society The book will be of interest to scholars working in art history architecture urbanism and environmental humanism
