**Slave-Wives, Single Women and “Bastards” in the Ancient Greek World** Morris Silver, 2018-01-31 Greek scholars have produced a vast body of evidence bearing on nuptial practices that has yet to be mined by a professional economist By standing on their shoulders the author proposes and tests radically new interpretations of three important status groups in Greek history the pallak the nothos and the hetaira It is argued that legitimate marriage marriage by loan of the bride to the groom was not the only form of legal marriage in classical Athens and the ancient Greek world generally Pallakia marriage by sale of the bride to the groom was also legally recognized The pallak wifeship transaction is a sale into slavery with a restrictive covenant mandating the employment of the sold woman as a wife In this highly original and challenging new book economist Morris Silver proposes and tests the hypothesis that the likelihood of bride sale rises with increases in the distance between the ancestral residence of the groom and the father s household Nothoi the bastard children of pallakai lacked the legal right to inherit from their fathers but were routinely eligible for Athenian citizenship It is argued that the basic social meaning of hetaira companion is not prostitute or courtesan but single woman a woman legally recognized as being under her own authority kuria The defensive adaptation of single women is reflected in Greek myth and social practice by their grouping into packs most famously the Daniads and Amazons

Cross-Border Marriages Nicole Constable, 2010-08-03 Illuminating how international marriages are negotiated arranged and experienced Cross Border Marriages is the first book to chart marital migrations involving women and men of diverse national ethnic and class backgrounds The migrations studied here cross geographical borders of provinces rural urban borders within nation states and international boundaries including those of China Japan South Korea India Vietnam the Philippines the United States and Canada Looking at assumptions about the connection between international marriages and poverty opportunism and women s mobility the book draws attention to ideas about global patterns of inequality that are thought to pressure poor women to emigrate to richer countries while simultaneously suggesting the limitations of such views Breaking from studies that regard the international bride as a victim of circumstance and the mechanisms of international marriage as traffic in commodified women these essays challenge any simple idea of global hypergamy and present a nuanced understanding where a variety of factors not the least of which is desire come into play Indeed most contemporary marriage scapes involve women who relocate in order to marry rarely is it the men But Nicole Constable and

the volume contributors demonstrate that contrary to popular belief these brides are not necessarily poor nor do they categorically marry men who are above them on the socioeconomic ladder Although often women may appear to be moving up from a less developed country to a more developed one they do not necessarily move higher on the chain of economic resources Complicating these and other assumptions about international marriages the essays in this volume draw from interviews and rich ethnographic materials to examine women s and men s agency their motivations for marriage and the importance of familial pressures and obligations cultural imaginings fantasies and desires in addition to personal and economic factors Border crossing marriages are significant for what they reveal about the intersection of local and global processes in the everyday lives of women and men whose marital opportunities variably yield both rich possibilities and bitter disappointments
