Soldier, Sage, Saint Robert C. Soldier, Sage, Saint Robert C. Neville,1978 This is a philosophic study of some aspects of spiritual development broadly defined Professor Neville has been influenced significantly by comparison between several of the world s great spiritual

traditions and he has tried to be faithful to experiences in those traditions Readers whose interest in spiritual development come out of non Western traditions will find this book congenial But this is a philosophical study and the book puts forward a philosophical theory of spiritual development paying attention to personal social and metaphysical concerns and analyzing three central images of spiritual heroism The central contribution attempted here is a way of understanding the quest for spiritual liberation or perfection through the models of the spiritual soldier the sage and the saint At times the argument aims not just to understand but to promote spiritual liberation and to do so through philosophic understanding A

Whitehead's Radically Different Postmodern Philosophy David Ray Griffin, 2012-02-01 Postmodern philosophy is often dismissed as unintelligible self contradictory and as a passing fad with no contribution to make to the problems faced by philosophers in our time While this characterization may be true of the type of philosophy labeled postmodern in the 1980s and 1990s David Ray Griffin argues that Alfred North Whitehead had formulated a radically different type of postmodern philosophy to which these criticisms do not apply Griffin shows the power of Whitehead's philosophy in dealing with a range of contemporary issues the mind body relation ecological ethics truth as correspondence the relation of time in physics to the irreversible time of our lives and the reality of moral norms He also defends a distinctive dimension of Whitehead's postmodernism his theism against various criticisms including the charge that it is incompatible with relativity theory

God the Creator Robert Cummings Neville, 1992-02-13 God the Creator provides a detailed exposition of a conception of God as the creator of everything determinate It does not defend an established conception such as the Thomist the Calvinist or the Process theological idea but rather elaborates the ancient theme of creation ex nihilo in a new form appropriate to the contemporary world Part one is a rigorous philosophical development of the idea of God as creator ex nihilo arguing that an adequate solution to the problem of the one and the many demands such a conception This part includes a dialectical examination of contemporary and classical theories of being Part two asks how

one can have knowledge of the kind of God described previously it deals with experience analogy and dialectic Part three applies the conception developed in part one to fundamental religious conceptions such as the object of worship the nature of religion and the practices of private and public religious life It presents theories arising from the conception of creation ex nihilo for the interpretation of religious concern conversion faith certainty solitude bliss service liturgy providence evangelism dedication reconciliation brotherhood discipline the integration of public and private religion relative to other dimensions of life freedom love and glory Though the language arises from the Christian tradition and expresses an orthodox strand of that religion the argument weaves throughout the concerns of many world religions *The Big Break* Stephen Dando-Collins,2017-01-10 The story opens in the stinking latrines of the Schubin camp as an American and a Canadian lead the digging of a tunnel which enabled a break involving 36 prisoners of war POWs The Germans then converted the camp to Oflag 64 to exclusively hold US Army officers with more than 1500 Americans ultimately housed there Plucky Americans attempted a variety of escapes until January 1945 only to be thwarted every time Then with the Red Army advancing closer every day camp commandant Colonel Fritz Schneider received orders from Berlin to march his prisoners west Game on Over the next few days 250 US Army officers would succeed in escaping east to link up with the Russians although they would prove almost as dangerous as the Nazis only to be ordered once they arrived back in the United States not to talk about their adventures Within months General Patton would launch a bloody bid to rescue the remaining Schubin Americans In *The Big Break* this previously untold story follows POWs including General Eisenhower's personal aide General Patton's son in law and Ernest Hemingway's eldest son as they struggled to be free Military historian and Paul Brickhill biographer Stephen Dando Collins expertly chronicles this gripping story of Americans determined to be free brave Poles risking their lives to help them and dogmatic Nazis determined to stop them **Theology in Global Context** Amos Yong,Peter G.

Heltzel,2016-10-06 Robert Cummings Neville has been a consistent advocate for the necessity of global theology Early in his career he realized that the philosophical framework of the West alone was inadequate for a truly global theology Since then he has sought to develop theology creatively and responsibly within the world context The original essays in this volume written in his honour by fellow theologians participate in and model the kind of dialogical global theology embodied in Neville's work **Guarding the Soldier's Secret** Kathleen Creighton,2016-10-01 A sexy soldier comes back from the dead to protect his daughter and her beautiful guardian Desperate to save his young daughter's life soldier Hunt Grainger tasked war correspondent Yancy Malone with smuggling Laila to the US Now years later Yancy and Laila are back in Afghanistan and face to face with the man they both thought was dead Hunt is desperate to reconnect with the child he barely knows and the headstrong redhead he never forgot When Laila and Yancy are targeted by a group hell bent on revenge Hunt's protective instincts kick into overdrive Their only option hide out at Yancy's family ranch until the threat subsides But Hunt's own secrets might lead everyone he loves into even more danger *Gettysburg's Southern Front* Hampton

Newsome,2022-10-03 On June 14 1863 US Major General John Adams Dix received the following directive from General in Chief Henry Halleck All your available force should be concentrated to threaten Richmond by seizing and destroying their railroad bridges over the South and North Anna Rivers and do them all the damage possible With General Robert E Lee and the Army of Northern Virginia marching toward Gettysburg and only a limited Confederate force guarding Richmond Halleck sensed a rare opportunity for the Union cause In response Dix who had lived a life of considerable public service but possessed limited military experience gathered his men and began a slow advance During the ensuing operation 20 000 US troops would threaten the Confederate capital and seek to cut the railroads supplying Lee s army in Pennsylvania To some Dix s campaign presented a tremendous chance for US forces to strike hard at Richmond while Lee was off in Pennsylvania To others it was an unnecessary lark that tied up units deployed more effectively in protecting Washington and confronting Lee s men on Northern soil In this study Newsome offers an in depth look into this little known Federal advance against Richmond during the Gettysburg Campaign The first full length examination of Dix s venture this volume not only delves into the military operations at the time but also addresses concurrent issues related to diplomacy US war policy and the involvement of enslaved people in the Federal offensive Gettysburg s Southern Front also points to the often unrecognized value in examining events of the US Civil War beyond the larger famous battles and campaigns At the time political and military leaders on both sides carefully weighed Dix s efforts at Richmond and understood that the offensive had the potential to generate dramatic results In fact this piece of the Gettysburg Campaign may rank as one of the Union war effort s more compelling lost opportunities in the East one that could have changed the course of the conflict Bellarion Raphael Sabatini,2014-11-30 Bellarion a young man set on joining the priesthood is diverted from his calling to serve the Princess Valeria He remains with her for five years serving her faithfully despite her coldness Yet when the time comes for him to leave they both find that the passion and romance of Italy has left its mark Creativity and God Robert C. Neville,1995-01-01 This book is a sympathetic critique of process theology with responses to the arguments addressed by leading thinkers **The Sociological Predicament** Alexander Thomas,2025-04-17 A sociological phenomenon afflicts sociology itself academics think of themselves as the vanguard of the working class despite the fact that they are not working class as the noble willingness to side with the oppressed contrasts scholars reliance on authority to bolster their politics While there are no simple solutions to this contradiction a necessary beginning is for sociologists and other academics to acknowledge the reality of their own class privilege as members of the professional managerial class The Sociological Predicament is then a conscious and deliberate work of professional self loathing that traces the evolution of ideologies found in academia from the mid twentieth century to today which demonstrates the ways in which biases around class have given short shrift to the concerns of working class Americans in deindustrialized cities and towns that have ultimately turned away from and then against them Intellectuals have not historically been on the side of the oppressed but have been instrumental

in developing ideologies that sustain the status quo and this book crucially asks whether academics presence on the left ultimately serves conservative ends

Reconstruction of Thinking Robert Cummings Neville, 1981-06-30 The Renaissance development of science fulfilled the ancient ideal of integrating quantitative and qualitative thinking but failed to recognize valuational thinking and thus deprived moral aesthetic and political thought of cognitive status The task of this book is to reconstruct the concept of thinking in order to exhibit valuation not reason as the foundation for thinking and to integrate valuational with quantitative and qualitative modes Part I explains the broad thesis interpreting the problem of the foundations for thinking and providing a general theory of value Part II explains the role of valuation at the imaginative level of thinking with discussions of synthesis perception form and art The method of reconstruction requires a cosmology that is generated in successive waves
