Massue,2013-09-03 Solid State Nuclear Track Detectors is a collection of papers that covers various aspects of solid state nuclear track detectors The book presents 130 articles that cover the concerns in the mechanisms operations and applications of solid state nuclear track detectors The materials in the text are thematically grouped into three parts The book first discusses the fundamental mechanisms which include determination of the screening parameter from measurements of differential energy loss and atomic displacement effects from heavy ion induced coulomb explosion Next the selection presents articles that deal with the methodology of detectors such as experimental track widths of low energy heavy ions in nuclear emulsion and structure of light nuclei tracks The remaining papers cover the fields of applications such as nuclear fusion prospection of radioactive and fissionable minerals dosimetry and autoradiography The book will be of great use to researchers and practitioners of disciplines related to nuclear science Solid State Nuclear Track Detectors F. Granzer,2013-09-17 Solid State Nuclear Track Detectors Volume 1 covers the proceedings of the 9th International Conference held in Neuherberg Munchen on September 30 to October 6 1976 The book focuses on the principles methodologies and approaches involved in the study of solid state nuclear track detectors The selection first elaborates on the track structure theory in radiobiology and in radiation detection primary damage and secondary electron damage in heavy ion tracks in plastics computer simulation of collision cascades in some non metallic solids and a statistical model for track formation The text then examines a spatial track formation model and its use for calculating etch pit parameters of light nuclei revision of the concept of registration threshold in plastic track detectors and dependence of the mass identification scale on different track formation models The manuscript explores luminescent investigation of mechanism of silver halides radiolysis ammonium dihydrogen phosphate single crystals variation of some heavy ion track characteristics with the polymeric detector crystallinity and some aspects of the etching behavior of cellulose nitrate as track detector The selection is a valuable reference for researchers interested in solid state nuclear track detectors Solid State Nuclear Track Detectors P.
