Library of Congress Subject Headings Library of Congress. Cataloging Policy and Support Office, 2009 **The Variations of Johannes Brahms** Julian Littlewood, 2004 Variation is a fundamental musical principle yet its most naked expression variation form resists all but the broadest of descriptions This book offers listener performer analyst and composer an eclectic array of approaches to Theme and Variations including patterns of departure and return real versus perceived time strategies of propulsion and closure in an intrinsically cyclic and open ended form the interplay of authorial voices deriving from dialogue between the self of variations and the other of their theme critique of a theme through a set of generic references drama and narrative achieved through textural and tonal control and the intrinsic sound of a variation so different from that of a freely composed work These topics are introduced through a general survey of the form seen through the prisms of the provenance of themes and the ideologies of sets before being developed through close study of Brahms's variation sets and movements Brahms was supremely aware of his place in music history and was uncommonly self-conscious in his manipulation of different techniques of composition His variation sets some of the most well-crafted and beloved examples place the interplay of forms and styles at the heart of their identity Moreover in their stunning breadth and diversity they offer a microcosm of Brahms's entire output a succinct revelation of his life-long concerns Through them we marvel at his technical and poetic mastery and journey to the heart of his creative character Home Sweet Home Henry Rowley Bishop, 1850 **Catalogue of Music** British Museum, 1895 *From Petipa to Balanchine* Tim Scholl, 2003-09-02 An engaging and provocative re-evaluation of ballet's development from the 1880s to the middle of the twentieth century
