Solo Homeless:

Shadow Women Marjorie Bard, 1990 Since 1975 Dr Marjorie Bard has listened to the homeless especially homeless women. They have told her their stories despite threats of retaliation and begged her to bring their problems and the social injustice that underlies these problems to the attention of all those who would listen and those who deny any problem exists. Out of these encounters as well as Dr Bard's own experience with homelessness emerges *Shadow Women*. **Finding Home: Policy Options for Addressing Homelessness in Canada**, 2009 **Going Solo** Eric Klinenberg, 2013-01-29 With eye-opening statistics, original data and vivid portraits of people who live alone, renowned sociologist Eric Klinenberg upends conventional wisdom to deliver the definitive take on how the rise of going solo is transforming the American experience. Klinenberg shows that most single dwellers, whether in their twenties or eighties, are deeply engaged in social and civic life. There's even evidence that people who live alone enjoy better mental health and have more environmentally sustainable lifestyles. Drawing on more than three hundred in-depth interviews, Klinenberg presents a revelatory examination of the most significant demographic shift since the baby boom and offers surprising insights on the benefits of this epochal change.

Shadow Women (Routledge Revivals) Marjorie Bard, 2016-06-10 First published in 1990, this book emerged from the author's experiences talking to homeless women and her desire to bring these problems to light along with the social injustice that often underlies them. The book also describes being at risk, a paycheck widowhood or unfair divorce settlement, away from sleeping in a car, living in malls and parks, dining in grocery stores. The author intends to raise awareness, participation and proposes solutions that do not simply beg more government-funded shelters but rather foster self-sufficient living and working by raising self-esteem and community spirit. This book will be of interest to students of sociology. *Solo Explorers* Vaishali Patel, 2023-11-12 1 AMAZON BESTSELLER in Literary Travel. *Solo Explorers* a collection of inspiring stories of transformation through solo travel. How to House the Homeless Ingrid Gould Ellen,Brendan O'Flaherty,2010-06-24 How to House the Homeless editors Ingrid Gould Ellen and Brendan O Flaherty propose that the answers entail rethinking how housing markets operate and developing more efficient interventions in existing service programs The book critically reassesses where we are now analyzes the most promising policies and programs going forward and offers a new agenda for future research How to House the Homeless makes clear the inextricable link between homelessness and housing policy Contributor Jill Khadduri reviews the current residential services system and housing subsidy programs For the chronically homeless she argues a combination

of assisted housing approaches can reach the greatest number of people and specifically an expanded Housing Choice Voucher system structured by location income and housing type can more efficiently reach people at risk of becoming homeless and reduce time spent homeless Robert Rosenheck examines the options available to homeless people with mental health problems and reviews the cost effectiveness of five service models system integration supported housing clinical case management benefits outreach and supported employment He finds that only programs that subsidize housing make a noticeable dent in homelessness and that no one program shows significant benefits in multiple domains of life Contributor Sam Tsemberis assesses the development and cost effectiveness of the Housing First program which serves mentally ill homeless people in more than four hundred cities He asserts that the program's high housing retention rate and general effectiveness make it a viable candidate for replication across the country Steven Raphael makes the case for a strong link between homelessness and local housing market regulations which affect housing affordability and shows that the problem is more prevalent in markets with stricter zoning laws Finally Brendan O Flaherty bridges the theoretical gap between the worlds of public health and housing research evaluating the pros and cons of subsidized housing programs and the economics at work in the rental housing market and home ownership Ultimately he suggests the most viable strategies will serve as safety nets social insurance to reach people who are homeless now and to prevent homelessness in the future It is crucial that the links between effective policy and the whole cycle of homelessness life conditions service systems and housing markets be made clear now With a keen eye on the big picture of housing policy How to House the Homeless shows what works and what doesn't in reducing the numbers of homeless and reaching those most at risk
