

MODULE 6: INVESTIGATION 2

Coordinate Shapes

This investigation develops the use of coordinates in the context of vertices of shapes which have geometric properties. The activities encourage the reading and writing of coordinate notation through the use of the letter of the alphabet on a grid. Scaling is revisited to transform pixel coordinates to grid coordinates. Connections can be made to the geometric properties of shapes by creating problems and encouraging pupils to exchange their own creations using the **6-Coordinates FINAL** project which is built during the investigation.
