A Brighter Future Richard Holt, Daphne Greenwood, 2014-12-18 As the United States continues its slow climb out of the Great Recession it is important to focus on new directions to improve the standard of living in America This book explores what is behind a faltering standard of living in the United States since the early 1980s and what can be done to restore it The book is uniquely valuable in going beyond mainstream thinking about how to restore prosperity Economics has traditionally equated economic growth increases in per capita income with improvements in quality of life and the standard of living This book questions that assumption The different chapters in the book show the standard of living as being more than income to include many non market aspects such as access to public goods roads clean air and water schools parks and museums intangible aspects of quality of life such as equity and a sense of community and broadly based economic opportunities This means that improving the standard of living is a multi dimensional challenge rather than one of solely increasing aggregate demand productivity or GDP This book embodies a pluralistic approach and draws on the expertise of a wide array of thinkers The intended audience is for various courses offered in economics sociology political science public policy programs and in environmental and ecological studies Charting a Sustainable Future of ASEAN in Business and Social Sciences Naginder Kaur, Mahyudin Ahmad, 2020-07-23 This volume showcases selected conference papers addressing the sustainable future of ASEAN from the perspectives of business and social science disciplines In addressing the 17 Sustainable Development Goals (SDGs) envisioned by the United Nations in the domains of environment health and well being posing potential means of reducing inequalities globally the authors target specific issues and challenges confronting the fast growing region of ASEAN and present suggestions for co operation and commitment from governments non governmental organisations NGOs and society at large in line with the ASEAN Vision 2020 Papers are

selected from the 3rd International Conference on the Future of ASEAN ICoFA 2019 organised by Universiti Teknologi MARA in Malaysia whose conference theme Charting the Sustainable Future of ASEAN enables intellectual discourse on sustainability issues from business and the social sciences as well as science and technology The selection of papers is published in two volumes comprising scholarly and practical insights into sustainability in ASEAN This first volume of papers from business and social science scholars will be of interest to researchers and policymakers interested in sustainability developments in the ASEAN region
