medium was seemingly able to materialize different objects animate and inanimate under conditions which made it difficult to conceive how they could have been normally produced Sumitra Singh a woman of Northern India who in 1984 became subject to epileptic type seizures claimed to be possessed by spirits of the dead Franck Kluski was a Polish poet banker and physical medium who specialized in both human and animal materializations This biographical dictionary contains profiles of 330 psychics worldwide from Tony Agpaoa to Elenor Zugun each accompanied by a bibliography listing the primary sources consulted The primary focus is on those claimed psychics who have figured prominently in the history of the subject though some lesser known figures are included to show how rich varied and colorful that history has been The aim throughout is to present each case as fairly and dispassionately as the facts allow with a particular eye for accuracy in details and presentation The approach is historical not apologetic or accusatory making the work ideally suited as a permanent reference

**They Flew** Carlos M. N. Eire, 2023-09-26 An award winning historian's examination of impossible events at the dawn of modernity and of their enduring significance Accounts of seemingly impossible phenomena abounded in the early modern era tales of levitation bilocation and witchcraft even as skepticism atheism and empirical science were starting to supplant religious belief in the paranormal In this book Carlos Eire explores how a culture increasingly devoted to scientific thinking grappled with events deemed impossible by its leading intellectuals Eire observes how levitating saints and flying witches were as essential a component of early modern life as the religious turmoil of the age and as much a part of history as Newton's scientific discoveries Relying on an array of firsthand accounts and focusing on exceptionally impossible cases involving levitation bilocation witchcraft and demonic possession Eire challenges established assumptions about the redrawing of boundaries between the natural and supernatural that marked the transition to modernity Using as his case studies stories about St Teresa of Avila St Joseph of Cupertino the Venerable Mar a de greda and three disgraced nuns Eire challenges readers to imagine a world animated by a different understanding of reality and of the supernatural's relationship with the natural world The questions he explores such as why and how impossibility is determined by cultural contexts and whether there is more to reality than meets the eye or can be observed by science have resonance and lessons for our time

**The Thought Reader Craze** Barry H. Wiley, 2012-10-06 Beginning in 1870 the hunger for scientific discovery in Great Britain drove prominent scientists philosophers and others to promote the legitimacy of telepathy At the same time mind reading as a form of entertainment gained increasing popularity as persuasive performers like John Randall Brown W I Bishop and Stuart C Cumberland convinced reporters that they truly could read the thoughts of others The widely publicized sometimes bizarre interactions between scientists and these charlatans ushered in the Thought Reader Craze a period that lasted through about 1910 and saw entertainers make and lose fortunes and scientists make and lose reputations This volume explores this unusual cultural phenomenon showing how it was aided through the years by public scientific pronouncements astonishing performances by the thought readers and the rapidly changing industrial society

*Developments in the Histories of Sexualities* Chris Mounsey, 2013-04-11 *Developments in the Histories of Sexualities* In Search of the Normal 1600 1800 explores the oppositions created by the official exclusion of banned sexual practices and the resistance to that exclusion through widespread acceptance of those outlawed practices at an interpersonal level At different times and in different places state legislation sets up or tries to set up a normal by rejecting a particular practice or group of practices Yet this normal is derogated by popular practice since the banned acts themselves are thought at the grassroots level to be normal Among the events discussed in these essays are the Woods Pirie trial the Ladies of Llangollen the popular acceptance of pimps and mollies and the press reaction to the discovery that James Allen was a woman who had lived successfully as a man and Lavinia Edwards was a man who had made her living as a female prostitute *Developments in the History of Sexualities* analyzes both the state language of bans and facts about sexuality and the grassroots language which marks the acceptance of multiplicity in sexual practice Contributors benefit from the accumulation of new evidence of attitudes towards sexual practice and they engage with a wide range of texts including Ned Ward's *History of the Clubs* Tobias Smollett's *Roderick Random* Shakespeare's *Taming of the Shrew* and *The Tempest* Dryden's *All for Love* Anne Batten Crisall's *Poetical Sketches* Isaac de Benzerade's *Iphis et Iante* and Alessandro Verri's *Le Avventure di Saffo* ***Ghost Hunters*** Deborah Blum, 2007-05-29 The Pulitzer Prize winning author of *The Poison Squad* and *The Poisoner's Handbook* tells the amazing story of William James's quest for empirical evidence of the spirit world What if a world renowned philosopher and professor of psychiatry at Harvard suddenly announced he believed in ghosts At the close of the nineteenth century the illustrious William James led a determined scientific investigation into unexplainable incidences of clairvoyance and ghostly visitations James and a small group of eminent scientists staked their reputations their careers even their sanity on one of the most extraordinary quests ever undertaken to empirically prove the existence of ghosts spirits and psychic phenomena What they pursued and what they found raises questions as fascinating today as they were then ***The Man Who Could Fly*** Michael Grosso, 2015-12-14 St Joseph of Cupertino began having mystical visions at the age of seven but it was not until he began practicing his faith as a Franciscan priest that he realized the full potential of his mind's power over his body he was able to levitate Throughout his priesthood St Joseph became famous for frequent levitations that were observed on hundreds of occasions and by thousands of witnesses including many skeptics Michael Grosso delves into the biography of the saint to explore the many strange phenomena that surrounded his life and develops potential physical explanations for some of the most astounding manifestations of his religious ecstasy Grosso draws upon contemporary explorations into cognition the relationship between the human mind and body and the scientifically recorded effects of meditation and other transcendent practices to reveal the implications of St Joseph's experiences and abilities ***Icelandic Spiritualism*** Loftur Reimar Gissurarson, 2018-01-16 *Icelandic Spiritualism* is an engaging social anthropological study of the place of spiritualism in Icelandic church and society during the first half of the twentieth century Challenging standard theoretical approaches to the

study of religion the book contributes a wealth of data on the history of religion and psychical research presenting it in a vivid descriptive narrative The authors trace the role of the spirit world in Icelandic culture giving particular attention to the distinctive history of Iceland's conversion to Christianity They focus on the appearance of modern spiritualism as a distinct phenomenon in Icelandic life The book studies the interaction between various groups in fin de siècle Icelandic society not least in the state church as mediumistic phenomena became widely reported through the newspapers To some Icelandic spiritualism may be considered a deviant case of Protestantism What makes this book interesting however is that the spiritualism is seen as integral to Iceland's transition to modernity While Icelandic Spiritualism concentrates mainly on the first half of the twentieth century it also provides a summary of the continuation of spiritualist phenomena up to the current period This intriguing study will be of interest to theologians philosophers sociologists psychologists and anthropologists

*The Resurrection of Jesus* Dale C. Allison, Jr., 2021-03-11 The earliest traditions around the narrative of Jesus' resurrection are considered in this landmark work by Dale C. Allison Jr drawing together the fruits of his decades of research into this issue at the very core of Christian identity Allison returns to the ancient sources and earliest traditions charting them alongside the development of faith in the resurrection in the early church and throughout Christian history Beginning with historical critical methodology that examines the empty tomb narratives and early confessions Allison moves on to consider the resurrection in parallel with other traditions and stories including Tibetan accounts of saintly figures being assumed into the light in the chapter Rainbow Body Finally Allison considers what might be said by way of results or conclusions on the topic of resurrection offering perspectives from both apologetic and sceptical viewpoints In his final section of modest results he considers scholarly approaches to the resurrection in light of human experience adding fresh nuance to a debate that has often been characterised in overly simplistic terms of it happened or it didn't

*Laboratories of Faith* John Warne Monroe, 2018-07-05 At a fascinating moment in French intellectual history an interest in matters occult was not equivalent to a rejection of scientific thought participants in séances and magic rituals were seekers after experimental data as well as spiritual truth A young astronomy student wrote of his quest I am not in the presence or under the influence of any evil spirit I study Spiritism as I study mathematics He did not see himself as an ecstatic visionary but rather as a sober observer For him the darkened room of occult practice was as much laboratory as church In an evocative history of alternative religious practices in France in the second half of the nineteenth and beginning of the twentieth centuries John Warne Monroe tells the interconnected stories of three movements Mesmerism Spiritism and Occultism Adherents of these groups Monroe reveals attempted to modernize faith by providing empirical support for metaphysical concepts Instead of trusting theological speculation about the nature of the soul these believers attempted to gather tangible evidence through Mesmeric experiments séances and ceremonial magic While few French people were active Mesmerists Spiritists or Occultists large segments of the educated general public were familiar with these movements and often regarded them as fascinating

expressions of the modern condition a notable contrast to the Catholicism and secular materialism that prevailed in their culture Featuring eerie spirit photographs amusing Daumier lithographs and a posthumous autograph from Voltaire as well as extensive documentary evidence *Laboratories of Faith* gives readers a sense of what being in a séance or a secret society ritual might actually have felt like and why these feelings attracted participants While they never achieved the transformation of human consciousness for which they strove these thinkers and believers nevertheless pioneered a way of being religious that has become an enduring part of the Western cultural vocabulary

**Miracles, Convulsions, and Ecclesiastical Politics in Early Eighteenth-Century Paris** B. Robert Kreiser, 2015-03-08 In the midst of the fierce controversies raging in France over the papal bull *Unigenitus* worshipers at the tomb of a revered Jansenist deacon in Paris's Saint-Médard cemetery witnessed a variety of miraculous occurrences These well publicized events led to the emergence of a cult that came to affect and be affected by the most furious religious debate of the eighteenth century Professor Kreiser provides a full and objective account of the conflicts surrounding this unsanctioned cult which remained a major cause célèbre in ecclesiastical politics for nearly a decade The author details the intricate relationships between Church and State and broadens our awareness of the political implications of popular religion during the ancien régime His wide-ranging book is the first account of the Saint-Médard episode to deal with this affair in its multiple contexts At stake was more than acceptance of the papal bull whose political history the author discusses Also involved as he shows were fundamental questions about the nature of miracles conflicts between episcopal and priestly authority the unwelcome intrusions of the papacy in the affairs of the Gallican Church and struggles among the crown the Parlement of Paris and the French episcopate for control over ecclesiastical affairs Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

[Science of the Séance](#) Beth A. Robertson, 2016-11-28 In the 1920s and 30s people gathered in darkened rooms to explore the paranormal through seances

They were motivated by grief spiritual devotion or a desire to be entertained Beth A Robertson resurrects the story of a small transnational group and their quest for objective knowledge of the supernatural casting new light on how science metaphysics and the senses collided to inform gendered norms in this era Robertson draws back the curtain to reveal a world inhabited by researchers spirits and spiritual mediums Representing themselves as masters of the senses untainted by the effeminized subjectivity of the body psychical researchers in Canada the UK and the US believed that they could use machines and empirical methods to transform the seance into a laboratory of the spirits and a transnational empirical project However mediums and ghostly subjects could and did challenge their claims to scientific expertise and authority The Afterlife of Enclosure Carolyn J. Lesjak, 2021-04-27 The enclosure of the commons space once available for communal use was not a singular event but an act of slow violence that transformed lands labor and basic concepts of public life leading into the nineteenth century The Afterlife of Enclosure examines three canonical British writers Charles Dickens George Eliot and Thomas Hardy as narrators of this history the long duration and diffuse effects of which required new literary forms to capture the lived experience of enclosure and its aftermath This study boldly reconceives the realist novel not as an outdated artifact but as witness to the material and environmental dispossession of enclosure and bearer of utopian energies These writers reinvented a commons committed to the collective nature of the social world Illuminating the common at the heart of the novel from common characters to commonplace events Carolyn Lesjak reveals an experimental figuration of the lost commons once a defining feature of the British landscape and political imaginary In the face of privatization climate change new enclosures and the other forms of slow violence unfolding globally today this book looks back to a literature of historical trauma and locates within it a radical path forward The American Ecclesiastical Review Herman Joseph Heuser, 1962
