Something From Nothing

Elliot R. Wolfson

Something From Nothing:

Thirty Something (Nothing's How We Dreamed It Would Be) Filipa Fonseca Silva, Joana is a conservative controlling woman who expected much more from marriage Maria is trying to get back on her feet after being dumped just before her wedding Filipe hides his broken heart in failed relationships Is this as good as it gets when you're thirty something That's what these three friends from college times will find out during a dysfunctional dinner party Because life is not always how we dreamed it would be Considered by some The Big Chill of the 21st century this debut novel is all about the end of innocence Funny clever and real Open Secret Elliot R. Wolfson, 2012 Mena em Mendel Schneerson 1902-1994 was the seventh and seemingly last Rebbe of the Habad Lubavitch dynasty Marked by conflicting tendencies Schneerson was a radical messianic visionary who promoted a conservative political agenda a reclusive contemplative who built a Hasidic sect into an international movement and a man dedicated to the exposition of mysteries who nevertheless harbored many secrets Schneerson astutely masked views that might be deemed heterodox by the canons of orthodoxy while engineering a fundamentalist ideology that could subvert traditional gender hierarchy the halakhic distinction between permissible and forbidden and the social anthropological division between Jew and Gentile While most literature on the Rebbe focuses on whether or not he identified with the role of Messiah Elliot R. Wolfson a leading scholar of Jewish mysticism and the phenomenology of religious experience concentrates instead on Schneerson's apocalyptic sensibility and his promotion of a mystical consciousness that undermines all discrimination For Schneerson the ploy of secrecy is crucial to the dissemination of the messianic secret To be enlightened messianically is to be delivered from all conceptual limitations even the very notion of becoming emancipated from limitation The ultimate liberation or true and complete redemption fuses the believer into an infinite essence beyond all duality even the duality of being emancipated and not emancipated an emancipation in other words that emancipates one from the bind of emancipation At its deepest level Schneerson's eschatological orientation discerned that a spiritual master if he be true must dispose of the mask of mastery Situating Habad's thought within the evolution of kabbalistic mysticism the history of Western philosophy and Mahayana Buddhism Wolfson articulates Schneerson's rich theology and profound philosophy concentrating on the nature of apophatic embodiment semiotic materiality hypernomian transvaluation nondifferentiated alterity and atemporal temporality Sacraments of the Christian Faith Hugh of St. Victor, 1951 **Collage of Thought** Craig C. C. Cole, 2012-07-18 A compelling enjoyable and widely accessible exploration of one of the most fundamental scientific issues of our age Brian Greene author of The Elegant Universe In The Hole in the Universe an award winning science writer provides an illuminating slant on physics and mathematics by exploring the concept of nothing Scientific American Welcome to the world of cutting edge math

physics and neuroscience where the search for the ultimate vacuum the point of nothingness the ground zero of theory has rendered the universe deep rich and juicy Every time scientists and mathematicians think they have reached the ultimate void something new appears a black hole an undulating string an additional dimension of space or time repulsive anti gravity universes that breed like bunnies Cole's exploration at the edge of everything is as playfully entertaining as it is informative San Jose Mercury News A strong and sometimes mind blowing introduction to the edges of modern physics Salon.com

Comprising an expansive set of topics from the history of numbers to string theory the big bang even Zen the book's chapters are broken into bite sized portions that allow the author to revel in the puns and awkwardness that comes with trying to describe a concept that no one has fully grasped It is an amorphous flowing mind bending discussion written in rich graceful prose As clear and accessible as Hawking's A Brief History of Time this work deserves wide circulation not just among science buffs Publishers Weekly starred review Here we have the definitive book about nothing and who would think that nothing could be so interesting not only accessible but compelling reading St Louis Post Dispatch Elizabeth Bowen
