Soekadar,2022-02-28 *Does Happiness Write Blank Pages? On Stoicism and Artistic Creativity* Piotr Stankiewicz,2019-04-18 Stoicism is coming back in a big way Seen as a remedy for the craziness of the times we live in it is experiencing a great surge in academic and cultural interest Yet can one live stoically and be a

creative artist at the same time Delving into its underlying tenets obscure restrictions and limits of applicability Stankiewicz critically explores Stoicism and its complex association with artistic creativity Stoicism and artistic creativity are two great displays of the human spirit Yet there are multiple reasons to suspect that they are at odds with each other Popular culture encapsulates this problem in the figure of the rational yet emotionally remote Stoic who achieves serenity through withdrawal and the contrasting figure of the cursed poet tormented artist or simply a rock star who lives in a whirl of creative energy yet falls short of quietude Is this contrast valid Other disciplines including psychology have explored this problem But it has never been done philosophically Pioneering in its philosophical approach this book discusses how artistic creativity and its problems of identity expression and self creation serve as a great testing ground for Stoicism as well as its theoretical challenges and practical limits Stankiewicz presents a detailed investigation into the stereotypes of Stoic life that seeks to explain the cause of Stoicism s modern revival This book is an essential read for anyone captivated by Stoicism s complex allure
