Special Kind Of Courage 321 Eod Squadron:

A Special Kind of Courage Chris Ryder, 2005 **IRA, The Bombs and the Bullets** A. R. Oppenheimer, 2008-10-16 In this groundbreaking title A R Oppenheimer tells how the Irish Republican Army became the most adept and experienced insurgency group the world has ever seen through their bombing expertise and how after generations of conflict it all came to an end The book is a comprehensive account of more than 150 years of Irish republican strategic tactical and operational details and an analysis of the IRA s mission doctrine targeting and acquisition of weapons and explosives As a leading expert on non conventional weapons and explosives Oppenheimer vividly presents the story behind the bombs those who built and deployed them those who had to deal with and dismantle them and those who suffered or died from them He analyses where how and why the IRA s 19 000 bombs were built targeted and deployed and explores what the IRA was hoping to accomplish in its unrivaled campaign of violence and insurgency through covert acquisition training intelligence and counter intelligence Beginning with the Fenian Dynamiters in the second half of the nineteenth century Oppenheimer fully describes and assesses the impact of the pre 1970s bombing campaigns in Northern Ireland and England and the evolution of strategies and tactics during the Troubles He concludes with the decommissioning of an arsenal big enough to arm several battalions which included an entire home crafted missile system an unsurpassed range of improvised explosive devices IEDs and enough explosives to blow up several urban centres The author scrutinises the level of deadly improvisation that became the hallmark of the Provisional IRA s expertise and the ingenuity in its pioneering IED timing delay and disguise technologies and follows the arms race it carried on with the British Army and security services in a long war of mutual assured disruption He also provides an insight into the bombing equipment and guns in the vast IRA inventory held at Irish Police HQ in Dublin

There Will Be Fire Rory Carroll, 2023-04-04 A Goodreads Choice Awards Nomination for Best History had she been just a few feet in another direction flying tiles and masonry would have sliced her to ribbons As it was she survived and history changed There Will Be Fire is the gripping story of how the IRA came astonishingly close to killing Thatcher in the most spectacular attack ever linked to the Northern Ireland Troubles Journalist Rory Carroll reveals the long road to Brighton the hide and seek between the IRA and British security services the planting of the bomb itself and the painstaking search for clues and suspects afterward In There Will Be Fire Carroll draws on his own interviews and original reporting reveals new information and weaves together previously unconnected threads There Will Be Fire is journalistic nonfiction that reads like a thriller propelled by a countdown to detonation [The Northern Ireland Troubles](#) Aaron Edwards, 2023-09-28 In this fully illustrated introduction acclaimed historian Dr Aaron Edwards provides a concise overview of one of the most difficult and controversial actions in recent history Spanning 38 years of the Troubles the British Army s deployment in Northern Ireland codenamed Operation Banner was one of the most difficult and controversial in its recent history Over 10 000 troops were on active service during much of the campaign which saw armoured vehicles helicopters and special forces deployed onto the

streets of Ulster In this book Dr Aaron Edwards considers the strategic operational and tactical aspects of Operation Banner as the Army's military objectives morphed from high profile peacekeeping into a covert war against the IRA Using personal testimony from both sides of the sectarian divide as well as insights from the soldiers themselves he presents an authoritative introduction to the Army's role in the Troubles providing expert analysis of Operation Banner's successes and failures Updated and revised for the new edition with full colour maps and 50 new images this is an accessible introduction to the complicated yet fascinating history of modern Britain's longest military campaign

The Business of Martyrdom Jeffrey W Lewis, 2012-04-15 The Business of Martyrdom is the only comprehensive history of suicide bombing from its origins in Imperial Russia to the present day It makes use of a framework from the history and philosophy of technology to explain the diffusion and evolution of suicide bombing over the past several decades It is primarily a work of synthesis meant to reach a broad audience and endeavors to integrate as much of the recent scholarly literature as possible including reconciling explanatory mechanisms that seem to be at odds with one another In addition this book is able to draw on very recent changes in suicide bombing in the years 2008 2010 that allow it to have a slightly different perspective than earlier studies For the first time the global number of suicide attacks has declined significantly for three years in a row This book therefore has the advantage of addressing the phenomenon of suicide bombing as a bounded phenomenon with limits to its growth and diffusion To this point the impression that suicide bombers are the smartest bombs yet created has been widespread but confined to the area of metaphor Drawing well established ideas from the history of technology The Business of Martyrdom argues that the metaphor should be taken literally Suicide bombing is a technology that has been invented and re-invented at different times in different areas but always for the same purpose resolving a mismatch in military capabilities between antagonists by utilizing the available cultural and human resources Over the past several years analysts have produced a large number of monographs and articles examining suicide bombing The best contributions in this new and growing literature have shed considerable light on the complexity of suicide bombing in practice particularly regarding the structure of the organizations that deploy suicide bombers and the relationships between these organizations and the recruits whom they utilize in their attacks Nevertheless nagging inconsistencies and questions remain These inconsistencies can be explained by examining suicide bombing as a technological system that integrates human beings cultures and devices and directs them toward specific ends Such an analysis requires that neither the individual bombers nor their sponsoring organizations be the basic unit of discussion Instead the bombers must be understood as components within a much larger system that has been shaped by a host of social cultural and operational constraints throughout its existence Integrating insights from the historical analysis of other technological systems with the recent literature specifically devoted to suicide bombing therefore allows The Business of Martyrdom to develop a fuller understanding of suicide bombing as a unified yet diverse phenomenon

Divided We Stand John Horgan, 2013-03-07 This book an exciting new work written by one of the

world's leading terrorism experts presents a systematic and comprehensive look inside the strategy and psychology of Ireland's new terrorists **Northern Ireland: The Troubles** Kenneth Lesley-Dixon, 2020-01-31 It is of course no secret that undercover Special Forces and intelligence agencies operated in Northern Ireland and the Republic throughout the troubles from 1969 to 2001 and beyond What is less well known is how these units were recruited how they operated what their mandate was and what they actually did This is the first account to reveal much of this hitherto unpublished information providing a truly unique record of surveillance reconnaissance intelligence gathering collusion and undercover combat An astonishing number of agencies were active to combat the IRA murder squads the Provos among others the Military Reaction Force MRF and the Special Reconnaissance Unit also known as the 14 Field Security and Intelligence Company The Det as well as MI5 Special Branch the RUC the UDR and the Force Research Unit FRU later the Joint Support Group JSG It deals with still contentious and challenging issues as shoot to kill murder squads the Disappeared and collusion with loyalists It examines the findings of the Stevens Cassel and De Silva reports and looks at operations Loughgall Andersonstown Gibraltar and others **Soldiering Against Subversion** Dan Harvey, 2018-08-07 During a time of high tension terror and fear the Irish Defence Forces faced the very real threat of the Irish State being plunged into a savagely sectarian civil war The southern state faced a breakdown of law and order severely challenged by manhunts prison breaks shoot outs kidnappings bank robberies subversive training camps bomb making factories illegal weapons shipments and border operations Soldiering Against Subversion is the dramatic and previously untold story of the Irish Defence Forces critical role in defending the southern state against paramilitary forces during the worse years of the modern Troubles Retired Lieutenant Colonel Dan Harvey describes the major operations via in depth interviews with Irish Defence veterans revealing how these brave men and women protected the state on home soil From the kidnapping of Shergar and Quinsworth CEO Don Tidey the manhunt and capture of INLA leader Dessie the Border Fox O'Hare the pandemonium as the Irish army quells a violent prison riot in Mountjoy in 1972 to the Irish navy's efforts to thwart gun running off the coast of Kerry these first hand accounts reveal the true story of the fight for the nation's democracy **Human Factors in Effective Counter-Terrorism** Richard Warnes, 2024-02-29 This book seeks to provide a comparative assessment of the significance of human factors in effective counter terrorism The phrase human factors is used to describe personal relationships individual capabilities effective leadership technical interface organisational culture and the community engagement necessary to effectively minimise counter and control the threat of terrorism Unlike many works in the field this book is constructed around the input of experienced knowledge from over 170 semi structured interviews of specialist military policing intelligence and security practitioners those actors actually involved in countering terrorism These practitioners come from seven countries the United Kingdom Ireland France Spain Israel Turkey and the United States all of which have suffered over the years from different types of terrorist threat and responded with a mixture of counter terrorist measures Where military practitioners also

discussed overseas counter insurgency measures that material has been included since terrorism forms a key aspect of such wider insurgencies The resulting interview data was analysed through a variant of Grounded Theory to identify key emerging themes and issues both positive and negative relevant to human factors in the individual countries and more generically This book incorporates the informed operational experiences and insights of the interviewees while seeking to provide examples of successful counter terrorist measures at the strategic operational and tactical levels This book will be of much interest to students of counter terrorism defence studies and security studies in general **Professional Journal of the United States Army** ,2007
