Jackson, Amber Haque, Rosnani Hashim, For forty years AJIS has been a trusted platform for researchers scholars and practitioners serving as a conduit for the exchange of ideas the dissemination of cutting edge research and the cultivation of intellectual dialogue Many of us found this journal a space for ruminating discussing and developing our own narratives on our Islamic heritage and what it means in the contemporary world Especially compared to anti Islamic biases in other corners of academia AJIS is a coming home One constant throughout the past four decades is the journal's commitment to scholarship that documents and explores Islam's rich religious intellectual legal philosophical and social heritages The assumption is that these various perspectives have meaningful things to say about the human condition and our place in the world Debate discussion and disagreement all appear in these pages but always grounded in an underlying steadfastness that Islam is a faith tradition that is not obsolete that Muslims can contribute positively to humanity's betterment That said the journal is not a place of religious homilies This is an academic journal with a double blind peer review process Articles that are published thus pass muster in the discipline in which they conduct their research Let us thank the authors who have entrusted us with their groundbreaking research pushing the boundaries of knowledge and enriching our understanding of critical issues in our disciplines Let us thank the journal's editors editorial boards diligent reviewers and committed staff members who have meticulously upheld the journal's reputation for excellence contributing to its sustained success Subject Catalog Library of Congress, 1970 **The Rise of Political Economy as a Science** Deborah A Redman, 2003-01-01 Reviews the epistemological ideas that inspired the classical economists the methodological principles of Bacon Descartes Hobbes Newton Locke Hume Stewart Herschel and

Whewell The classical age of economics was marked by an intense interest in scientific methodology It was moreover an age when science and philosophy were not yet distinct disciplines and the educated were polymaths The classical economists were acutely aware that suitable methods had to be developed before a body of knowledge could be deemed philosophical or scientific They did not formulate their methodological views in a vacuum but drew on a rich collection of philosophical ideas Consequently issues of methodology were at the heart of political economy's rise as a science The classical era of economics opened under Adam Smith with political economy understood as an integral part of a broader system of social philosophy by the end it had emerged via J S Mill as a separate science albeit one still inextricably tied to the other social sciences and to ethics The Rise of Political Economy as a Science opens with a review of the epistemological ideas that inspired the classical economists the methodological principles of Bacon Descartes Hobbes Newton Locke Hume Stewart Herschel and Whewell These principles were influential not just in the development of political economy but in the rise of social science in general The author then examines science in eighteenth and nineteenth century Britain with a particular emphasis on the all important concept of induction Having laid the necessary groundwork she proceeds to a history and analysis of the methodologies of four economist philosophers Adam Smith Robert Malthus David Ricardo and J S Mill selected for their historical importance as founders of economics and for their common Scottish intellectual lineage Concluding remarks put classical methodology into a broader historical perspective *Library of Congress Catalogs* Library of Congress, 1976
