

SOCIOLOGICAL THEORY

Sociology is the scientific study of human society, social relationships, and the patterns of behavior that emerge within them.

OVERVIEW

Sociology explores how individuals are shaped by social structures, cultural norms, and institutions, and how they, in turn, shape society. Sociologists analyze various social phenomena such as inequality, social change, and group dynamics to understand how they impact individuals and communities.

KEY THEORIES

- **Functionalism:** The study of how societies achieve stability and order through social institutions.
- **Critical Theory:** The study of how social institutions maintain social inequalities and power imbalances.
- **Symbolic Interactionism:** The study of how society is constructed through shared meanings, symbols, and interactions among individuals.

Foundations of Social Theory A Critical Introduction accessibly introduces students to classical and contemporary social theory exploring the foundational theories which shape the discipline while also engaging critically with their contribution and presenting the more progressive and contemporary theorists in dialogue with canonical figures Social theory is introduced as the construction and connection of concepts which make social inquiry possible while appreciating that the study of society is never truly objective The relationship between positionality politics research and knowledge production is discussed and ideas from critical theorists feminist theorists and decolonial and critical race theorists are foregrounded Travelling chronologically and thematically from the birth of the discipline and the work of Marx Weber and Durkheim through to intersectionality queer theory and decolonial and postcolonial theory this book gives students a strong foundation in the broad field of social theory while also encouraging them to think critically about the theories and theorists presented Equipped with end of chapter questions and further reading this book will be essential reading for any student studying social theory for the first time *Foundations of Social Theory* James Samuel Coleman,1990 **Social Action Systems**

Thomas J. Fararo,2001-09-30 Fararo studies general theoretical sociology as a time extended tradition with three phases classical postclassical and recent Employing a process philosophical approach the author seeks to examine these three phases in an effort to provide a synthesis of the theories that seek to lay the foundations of theoretical sociology The author especially focuses on the work of Talcott Parsons and George Homans two contemporary theorists whose common aspiration was to forge a theoretical foundation for sociology that would serve to unify and integrate all theories growing out of sociological research in much the same way that the theory of evolution guides and integrates all other biological theories To begin the author provides a history and overview of the key classical theoretical frameworks from the perspective of process philosophy which he applies to all three phases of the study Fararo then carefully analyzes two major postclassical bodies of general theory namely the evolving and intertwined frameworks of Parsons and Homans from their early theories of social systems to their later divergent perspectives on foundation and synthesis in sociological theory Finally the discussion turns to the recent phase of general theoretical sociology where more recent foundation strategies rational choice theory and generative structuralism are analyzed in relation to the postclassical phase of the tradition This important and sophisticated new work is essential for all those interested in sociological theory in particular and sociology in general **Classical**
