Sourcebook on the Space Sciences Samuel Glasstone, United States. National Aeronautics and Space Administration, 1965 Sourcebook on the Space Science Samuel Glasstone, 1965 **Spacecraft Attitude Determination and Control** James R. Wertz, 1978-12-31 Roger D Werking Head Attitude Determination and Control Section National Aeronautics and Space Administration Goddard Space Flight Center Extensive work has been done for many years in the areas of attitude determination attitude prediction and attitude control During this time it has been difficult to obtain reference material that provided a comprehensive overview of attitude support activities This lack of reference material has made it difficult for those not intimately involved in attitude functions to become acquainted with the ideas and activities which are essential to understanding the various aspects of spacecraft attitude support As a result I felt the need for a document which could be used by a variety of persons to obtain an understanding of the work which has been done in support of spacecraft attitude objectives It is believed that this book prepared by the Computer Sciences Corporation under the able direction of Dr James Wertz provides this type of reference This book can serve as a reference for individuals involved in mission planning attitude determination and attitude dynamics an introductory textbook for students and professionals starting in this field an information source for experimenters or others involved in spacecraft related work who need information on spacecraft orientation and how it is determined but who have neither the time nor the resources to pursue the varied literature on this subject and a tool for encouraging those who could expand this discipline to do so because much remains to be done to satisfy future needs *The Sourcebook for Teaching Science, Grades 6-12* Norman Herr, 2008-08-11 The Sourcebook for Teaching Science is a unique comprehensive resource designed to give middle and high school science teachers a wealth of information that will enhance any science curriculum Filled with innovative tools dynamic activities and practical lesson plans that are grounded in theory research and national standards the book offers both new and experienced science teachers powerful strategies and original ideas that will enhance the teaching of physics chemistry biology and the earth and space sciences **Space Science** , 1969 Beyond the Atmosphere: Early Years of Space Science Homer Edward Newell, 1980 NASA EP. United States. National Aeronautics and Space Administration, 1961
CD-ROM Sourcebook for the Atmospheric, Oceanic, Earth and Space Sciences American Meteorological Society, 1994
Advances in Space Science and Technology Frederick I. Ordway, 2014-12-01 Advances in Space Science and Technology Volume 10 provides information pertinent to the developments in space science and technology This book discusses the logistic and shelter construction environment and transportation aspects of Antarctic and lunar exploration Organized into five chapters this volume begins with an overview of the comparison of the lunar exploration program with the exploration of Antarctica This text then explores the surface geology of the planet Mars wherein the study emphasizes that water erosion transport does not exist that an oxidizing atmosphere is absent and that wind erosion must be minimal Other chapters

consider the problems associated with navigation aboard spaceships traveling between the stars This book discusses as well the inadequacy of space communication systems as a means of providing an instantaneous and uninterrupted service The final chapter deals with predictions about the utility of space flight This book is a valuable resource for readers who are interested in space science and technology *Space Radiation* William R. Corliss, 1968
