Nuclear Disarmament in the Twenty-first Century Wade L. Huntley,Mitsuru Kurosawa,Kazumi Mizumoto,2005-03-06 This work provides a comprehensive examination of the current state and future prospects for nuclear disarmament at the turn of the century The work juxtaposes a sober review of progress made during the last decade with a proactive agenda of proposals for new disarmament initiatives in the next decade Taken together the contributions to this volume suggest that contrary to current conventional wisdom the increasing global cache of nuclear weapons and the waning progress on nuclear disarmament of recent years need not become the defining features of the post Cold War era Rather by examining the new conditions that have emerged at the dawn of the of the 21st century through both national and issue based perspectives this work reveals how the likelihood of continuing uncertainty and change in world affairs creates opportunities as well as the need for renewed progress toward significant nuclear disarmament

SouthSouth Trade and Finance in the Twenty-First Century Omar Dahi,Firat Demir,2016-10-10 This book is a contribution to the international trade and economic development literature and is based on a decade of joint research and collaboration on South South economic relations Given the increasing focus on the economic power of some developing countries for example the 2013 Human Development Report s Rise of the South it is particularly appropriate and timely NP The book s findings are based on rigorous empirical examination of South South trade and finance and it provides an even handed assessment from the perspective of long term development goals rather than mainstream welfare approaches or ideological theoretical worldview NP This work directly engages with the new developmentalism literature that has challenged the neoliberal orthodoxy and its policy approach which focuses on liberalization privatization and deregulation It also engages with literature by examining whether the increase in South South trade facilitates or inhibits the possibilities for developmentalist economic policy in developing countries The book shows concrete and positive results from

South South trade particularly related to industrial development and also documents how South South trade is dominated by large developing countries and that South South trade liberalization may be counterproductive
