South African Science Education Research An Indexed Bibliography:

The World of Science Education Femi S. Otulaja, Meshach B. Ogunniyi, 2017-09-12 Each volume in the 7 volume series The World of Science Education reviews research in a key region of the world These regions include North America South and Latin America Asia Australia and New Zealand Europe and Israel North Africa and the Middle East and Sub Saharan Africa The focus of this Handbook is on research in science education in mostly former British colonies in Sub Saharan Africa and the scholarship that most closely support this program The reviews of the research situate what has been accomplished within a given field in Sub Saharan Africa rather than an international context The purpose therefore is to articulate and exhibit regional networks and trends that produced specific forms of science education The thrust lies in identifying the roots of research programs and sketching trajectories focusing the changing face of problems and solutions within regional contexts The approach allows readers to review what has been done and accomplished what is missing and what might be done next Mathematics and Science Education in Developing Countries Masafumi Nagao, John M. Rogan, Marcelita Coronel Magno, 2007 **Developing Science, Mathematics, and ICT Education in Sub-Saharan Africa** Wout Ottevanger, J. J. H. van den Akker, Leo de Feiter, 2007-01-01 Developing Science Mathematics and ICT SMICT in Secondary Education is based on country studies from ten Sub Saharan African countries Botswana Burkina Faso Ghana Namibia Nigeria Senegal South Africa Uganda Tanzania and Zimbabwe and a literature review It reveals a number of huge challenges in SMICT education in sub Saharan Africa poorly resourced schools large classes a curriculum hardly relevant to the daily lives of students a lack of qualified teachers and inadequate teacher education programs Through examining country case studies this paper discusses the lessons for improvement of SMICT in secondary education in Africa **The African Book Publishing Record**, 2004 *South African Science Education Research* Rüdiger C. Laugksch, 2003 This bibliography of South African science education research over the past 70 years is an indispensable tool for academics students educators policy makers and curriculum and materials developers **Research in Education**, 1974 Proceedings of the ... Annual Conference and ... Conference of CASTME Africa Science Teachers Association of Nigeria. Conference, 2004 **Basic Concepts in the Methodology of the Social Sciences** Johann Mouton, H. C. Marais, 1988 This book consists of three major sections In the first which includes chapters 1 to 7 the basic concepts of the methodology of the social sciences are discussed In the second chapters 8 and 9 the most important concepts of part one are integrated in discussions on the writing of research proposals and research reports The third section appendices consists of three case studies in which the most important methodological principles which were discussed in the preceding sections are illustrated *Research in Practice* Martin Terre Blanche, Martin J. Terre Blanche, Kevin Durrheim, Desmond Painter, 2006 A major shift in research methodology from technical to more contextual and pragmatic approaches this thorough resource incorporates new trends while also providing comprehensive coverage of the full range of established research approaches and techniques skillfully

combining epistemology methodology statistics and application in a volume that is both sophisticated and practical Placing a greater emphasis on interdisciplinary and applied research skills this guide encourages the concurrent use of qualitative and quantitative methods and explores such complex topics as ethical issues in social science research inferential statistical methods and Marxist feminist and black scholarship perspectives *Quality Research in Literacy and Science Education* Mack C. Shelley, Larry D. Yore, Brian B. Hand, 2008-12-30 Statistical models attempt to describe and quantify relationships between variables In the models presented in this chapter there is a response variable sometimes called dependent variable and at least one predictor variable sometimes called independent or explanatory variable When investigating a possible cause and effect type of relationship the response variable is the putative effect and the predictors are the hypothesized causes Typically there is a main predictor variable of interest other predictors in the model are called covariates Unknown covariates or other independent variables not controlled in an experiment or analysis can affect the dependent or outcome variable and mislead the conclusions made from the inquiry Bock Velleman given the model p is the probability that a relationship is seen by mere chance The smaller the p value the more confident we can be that the pattern seen in the data is not random In the type of models examined here the R measures the proportion of the variation in the response variable that is explained by the predictors specified in the model if R is close to 1 then almost all the variation in the response variable has been explained This measure is also known as the multiple correlation coefficient Statistical studies can be grouped into two types experimental and observational
