global contexts civil society ethnicity women Islam and social media The performance of political institutions is also assessed and the volume offers a series of in depth case studies evaluating the country records of particular democratic hybrid and authoritarian regimes from a democratization perspective Bringing together nearly 30 key international experts in the field this cutting edge Handbook offers a comprehensive and fresh investigation into democracy in the region This timely survey will be essential reading for scholars and students of Democratization and Asian Politics as well as policymakers concerned with democracy s setbacks in Southeast Asia and the implications for the region s citizens *Hun Sen's Cambodia* Sebastian Strangio,2014-01-01 A fascinating analysis of the recent history of the beautiful but troubled Southeast Asian nation of Cambodia To many in the West the name Cambodia still conjures up indelible images of destruction and death the legacy of the brutal Khmer Rouge regime and the terror it inflicted in its attempt to create a communist utopia in the 1970s Sebastian Strangio a journalist based in the capital city of Phnom Penh now offers an eye opening appraisal of modern day Cambodia in the years following its emergence from bitter conflict and bloody upheaval In the early 1990s Cambodia became the focus of the UN s first great post Cold War nation building project with billions in international aid rolling in to support the fledgling democracy But since the UN supervised elections in 1993 the nation has slipped steadily backward into neo authoritarian rule under Prime Minister Hun Sen Behind a mirage of democracy ordinary people have few rights and corruption infuses virtually every facet of everyday life In this lively and compelling study the first of its kind Strangio explores the present state of Cambodian society under Hun Sen s leadership painting a vivid portrait of a nation struggling to reconcile the promise of peace and democracy with a violent and tumultuous past **Comparing autocracies in the early Twenty-first Century** Aurel Croissant,Steffen Kailitz,Patrick Koellner,Stefan Wurster,2016-03-17 Authoritarianism research has evolved into one of the fastest growing research fields in comparative politics The newly awakened interest in autocratic regimes goes hand in hand with a lack of systematic research on the results of the political and substantive policy performance of variants of autocratic regimes The contributions in this second volume of Comparing Autocracies are united by the assumption that the performance of political regimes and their persistence are related Furthermore autocratic institutions and the specific configurations of elite actors within authoritarian regime coalitions induce dictators to undertake certain policies and that different authoritarian institutions are therefore an important piece of the puzzle of government performance in dictatorships Based on these two prepositions the contributions explore the differences between autocracies and democracies as well as between different forms of non democratic regimes in regard to their outcome performance in selected policy fields how political institutions affect autocratic performance and persistence whether policy performance matter for the persistence of authoritarian rule and what happens to dictators once autocratic regimes fall This book is an amalgam of articles from the journals Democratization Contemporary Politics and Politische Vierteljahresschrift **The Theoretical and Practical Dimensions of Regionalism in East Asia** Karolina Klecha-Tylec,2016-11-29 This book provides a comprehensive overview

of developments in East Asian regionalism combining qualitative evidence with empirical quantitative analysis It argues that two dominant processes have formed East Asian regionalism 1 regionalization and 2 inter regionalism Klecha Tylec examines the differences between traditional and new regionalisms as they apply to East Asia the differences between East Asian and European regionalism the role of the United States in shaping regional links and the evolution of the three key structures of ASEAN ASEAN 3 and Asia Summits The book is unique for examining together the network zonal and geospatial dimensions of relations in East Asia as they apply at micro regional sub regional macro regional trans regional and inter regional levels The book offers a detailed analysis of intra regional links and the hybrid relationships between micro regions and nation states

Revolution, Reform and Regionalism in Southeast Asia Ronald Bruce St John, 2006-01-16 Based on research carried out over the three decades this book compares the post war political economies of Cambodia Laos and Vietnam in the context of their individual and collective impact on contemporary efforts at regional integration The author highlights the different paths to reform taken by the three neighbours and the effect this has had on regional plans for economic development through the ASEAN and the Greater Mekong Subregion Through its comparative analysis of the reforms implemented by Cambodia Laos and Vietnam over the last thirty years the book draws attention to parallel themes of continuity and change The author discusses how the three states have demonstrated related characteristics whilst at the same time making different modifications in order to exploit the unique strengths of their individual cultures Contributing to the contemporary debate over the role of democratic reform in promoting economic development the book provides a detailed account of the political economies of three states at the heart of Southeast Asia

and Risk Lobo Guerrero p book 9780415716079 *Politics and Society in Southeast Asia* Peter A. Poole, 2014-11-18 The Asian financial crisis of 1997 1998 caused severe hardship in Southeast Asia and many countries tightened their regulation of banks and other financial institutions adopted more conservative fiscal policies and made themselves less vulnerable to Western market fluctuations by forming closer trade and investment ties with their neighbors This book analyzes the major political and economic reforms that resulted from the Asian financial crisis looking particularly at how such reforms helped to prepare Asian countries for coping with the 2009 global recession In each of the ten country chapters the historical background social and political system economic development and foreign relations of each country are analyzed and compared with those of neighboring countries The concluding chapter looks ahead at the prospects for Southeast Asia in a more integrated Asian region Instructors considering this book for use in a course may request an examination copy here
