

An aerial photograph of a vast, arid landscape. The terrain is characterized by a complex network of winding, light-colored paths or dry riverbeds that snake across a darker, more textured ground. The overall color palette is dominated by earthy browns, tans, and greys, suggesting a desert environment. The lighting creates strong shadows, emphasizing the ruggedness of the land.

Soviet Tanks in Manchuria 1945 William E. Hiestand,2023-03-16 A new illustrated study of the devastating but little known Soviet armored blitzkrieg against the Japanese in the last weeks of World War II and how it influenced Soviet tank doctrine as the Cold War dawned Although long overshadowed in the West by the dropping of the atomic bombs on Hiroshima and Nagasaki the USSR s lightning strike into Manchuria in August 1945 was one of the most successful and unique campaigns of the era Soviet forces led by over 5 500 tanks and self propelled guns attacked across huge distances and deserts marshes and mountains to smash Japan s million strong Kwantung Army in a matter of days Japanese forces were short of training and equipment but nevertheless fought fiercely inflicting 32 000 casualties on the Soviets Red Army operations were characterized by surprise speed and deep penetrations by tank heavy forces born of the brutal lessons they had learned during years fighting the Wehrmacht Lessons from the campaign directly shaped Soviet Cold War force structure and planning for mechanized operations against the West Illustrated with contemporary artwork and rare photos from one of the best collections of Soviet military photos in the West this fascinating book explains exactly how the last blitzkrieg of World War II was planned fought and won and how it influenced the Red Army s plans for tank warfare against NATO in Europe [Background Information on the Soviet Union](#) Air University (U.S.). Air Command and Staff College,Kenneth R. Whiting,1959 **August Storm: The Soviet 1945 Strategic Offensive In Manchuria [Illustrated Edition]** Colonel David M Glantz,2015-11-06 Includes 15 tables 1 tables 26 maps In August 1945 only three months after the rumble of gunfire had subsided in Europe Soviet armies launched massive attacks on Japanese forces in Manchuria In a lightning campaign that lasted but ten days Soviet forces ruptured Japanese defenses on a 4 000 kilometer front paralyzed Japanese command and control and plunged through 450 kilometers of forbidding terrain into the heartland of Manchuria Effective Soviet cover and deception masked the scale of offensive preparations and produced strategic surprise Imaginative tailoring of units to terrain flexible combat formations and bold maneuvers by armor heavy task organized forward detachments and mobile groups produced operational and tactical surprise and ultimately rapid and total Soviet victory For the Soviet Army the Manchurian offensive was a true postgraduate combat exercise The Soviets had to display all the operational and tactical techniques they had learned in four years of bitter fighting in the west Though the offensive culminated an education it also emerged as a clear case study of how a nation successfully begins a war in a race against the clock arid not only against an enemy but also against hindering terrain Soviet military historians and theorists have recently focused on the Manchurian offensive a theater case study characterized by deep mobile operations on a broad front designed

to pre-empt and overcome defenses. Because these characteristics appear relevant to current theater operations, the Soviets study the more prominent operational and tactical techniques used in Manchuria in 1945. What is of obvious interest to the Soviet military professional should be of interest to the U.S. officer as well.

In the Ruins of Empire Ronald Spector, 2008-07-08. The New York Times said of Ronald H. Spector's classic account of the American struggle against the Japanese in World War II: "No future book on the Pacific War will be written without paying due tribute to *Eagle Against the Sun*. Now Spector has returned with a book that is even more revealing. *In the Ruins of Empire* chronicles the startling aftermath of this crucial twentieth-century conflict. With access to recently available firsthand accounts by Chinese, Japanese, British, and American witnesses and previously top-secret U.S. intelligence records, Spector tells for the first time the fascinating story of the deadly confrontations that broke out or merely continued in Asia after peace was proclaimed at the end of World War II. Under occupation by the victorious Allies, this part of the world was plunged into new power struggles or back into old feuds that in some ways were worse than the war itself. *In the Ruins of Empire* also shows how the U.S. and Soviet governments, as they secretly vied for influence in liberated lands, were soon at odds. At the time of the peace declaration, international suspicions were still strong. Joseph Stalin warned that 'crazy cutthroats' might disrupt the surrender ceremony in Tokyo Bay. Die-hard Japanese officers plotted to seize the emperor's palace to prevent an announcement of surrender, and clandestine relief forces were sent to rescue thousands of Allied POWs to prevent their being massacred. *In the Ruins of Empire* paints a vivid picture of the postwar intrigues and violence. In Manchuria, Russian liberators looted, raped, and killed innocent civilians, and a fratricidal rivalry continued between Chiang Kai-shek's regime and Mao's revolutionaries. Communist resistance forces in Malaya settled old scores and terrorized the indigenous population, while mujahideen holy warriors staged reprisals and terror killings against the Chinese. Hundreds of innocent civilians were killed on both sides. In Indochina, a nativist political movement rose up to oppose the resumption of French colonial rule; one of the factions that struggled for supremacy was the Communist Viet Minh, led by Ho Chi Minh. Korea became a powder keg with the Russians and Americans entangled in its north and south. And in Java, as the Indonesian novelist Idrus wrote, people brutalized by years of Japanese occupation worshipped a new God in the form of bombs, submachine guns, and mortars. Through impeccable research and provocative analysis, as well as compelling accounts of American, British, Indian, and Australian soldiers charged with overseeing the surrender and repatriation of millions of Japanese in the heart of dangerous territory, Spector casts new and startling light on this pivotal time and sets the record straight about this contested and important period in history.
