Gerace, 2004-06-01 Wherever international commerce flows in world politics military power often flows with it sometimes as a protector of commerce sometimes as its promoters and sometimes as a tool of aggression against it How are military power and international trade related Do military power and commerce expand together or does military power decline as commerce and perhaps interdependence increases Does this relationship vary across countries and if so how Power Conflict and Trade is a study of the relationship between military power and international commerce among the Great Powers prior to World War I After building an argument for a direct relationship between military power and commerce one grounded in a mercantilist view of state power and exploring their numerous connections the book estimates models of the relationship among the Great Powers and explores a great deal of their commercial and military data all of which is situated in the context of their mutual rivalries Another question investigated is whether the peacetime conflicts and rivalries of the Great Powers affected their trade relations adversely There is strong support for the argument that military power and commerce move together in world politics though there is evidence for an inverse relationship as well The New York Times Guide to Essential Knowledge The New York Times, 2011-10-25 Presents information on nearly fifty major categories such as architecture biology business history medicine sports and film a biographical dictionary a list of the wonders of the world and a writer's guide to grammar The International Politics of Africa's Strategic Minerals Oye Ogunbadejo, 2016-10-06 This important study examines the role of Africa's strategic mineral resources in global defense and in the international economic system Beginning with an overview of the situation as a whole the author discusses the role of transnational corporations in the exploitation of Africa's mineral resources and explains the implications of the theories of Matthew Effect dependency core periphery and imperialism Among the issues Ogunbadejo considers are the political economy of strategic minerals the

Who Controls Public Lands? Christopher McGrory Klyza,2000-11-09 In this historical and comparative study Christopher McGrory Klyza explores why land management policies in mining forestry and grazing have followed different paths and explains why public lands policy in general has remained virtually static over time According to Klyza understanding the different philosophies that gave rise to each policy regime is crucial to reforming public lands policy in the future Klyza begins by delineating how prevailing policy philosophies over the course of the last century have shaped each of the three land use patterns he discusses In mining the model was economic liberalism which mandated privatization of public lands in forestry it was technocratic utilitarianism which called for government ownership and management of land and in grazing it was interest group liberalism in which private interests determined government policy Each of these philosophies held sway in the years during which policy for that particular resource was formed says Klyza and continues to animate it even today
