Strategic Themes In The Opening And Beyond:

Beyond Mass Higher Education: Building On Experience McNay, Ian, 2005-11-01 What are the key elements of mass higher education How does mass higher education affect students and staff What are the policy pedagogic and management issues that need to be addressed More is now expected of higher education provision It has to meet demands for expansion excellence diversity and equity in access and assessment teaching and research as well as entrepreneurial engagement with the world outside Thirty years ago Martin Trow wrote of higher education systems moving from elite provision through a mass system to universal levels of access The UK is now approaching such universal levels Scotland has already reached them It is nearly fifteen years since Trow's mass threshold was reached Despite being on the brink of universal provision there is still no clear picture of what a mass system should look like This collection looks forward to the next decade of higher education and identifies strategic issues that need to be tackled at institutional and management levels It considers how far the higher education system has adapted to respond to the requirements of a mass and universal system rather than struggling to sustain an elite system with mass participation *Beyond Mass Higher Education* is key reading for those leading and managing universities and colleges as well as higher education researchers and policy makers Contributors John Brennan Centre for HE Research and Information Grainne Conole University of Southampton Stephen Court AUT Jim Gallacher Glasgow Caledonian University Peter Knight The Open University Carole Leathwood London Metropolitan University Brenda Little Open University Lisa Lucas University of Bristol Ian McNay University of Greenwich Robin Middlehurst University of Surrey Bob Osborne University of Ulster Richard Pearson Institute for Employment Studies Wendy Saunderson University of Ulster Michael Shattock Institute of Education London Celia Whitchurch King's College London Mantz Yorke Liverpool John Moores University

Beyond the Storms Dane S Egli, 2014-12-18 This book deals with both actual and potential terrorist attacks on the United States as well as natural disaster preparedness and management in the current era of global climate change The topics of preparedness critical infrastructure investments and risk assessment are covered in detail The author takes the reader beyond counterterrorism statistics better first responder equipment and a fixation on FEMA grant proposals to a holistic analysis and implementation of mitigation response and recovery efforts The recent Oklahoma tornadoes and West Texas storage tank explosion show the unpredictability of disaster patterns and the Boston Marathon bombings expose the difficulty in predicting and preventing attacks Egli makes a compelling case for a culture of resilience by asserting a new focus on interagency collaboration public private partnerships and collective action Building upon the lessons of the 9/11 attacks hurricane Katrina and the Deepwater Horizon oil spill the basic findings are supported by a creative mix of case studies which include superstorm Sandy cascading power outages GPS and other system vulnerabilities and Japan's Fukushima disaster with its sobering aftermath This book will help a new generation of leaders understand the need for smart resilience

Beyond Material Davorin Kuljasevic, 2019-09-20 Giving up material is one of the

most difficult decisions a chess player has to take But the reality is that winning a game very often requires you to make that choice The nagging question is always what about my compensation The old school used to relate compensation to correctness A sacrifice was correct if the material was swiftly returned if possible with interest Generations of chess players spent lots of time counting quantifying the static value of their pieces almost by reflex In this book Grandmaster Davorin Kuljasevic teaches you how to look beyond the material balance when you evaluate positions With many instructive fragments he shows how the actual value of your pieces fluctuates during the game depending on many non material factors Some of those factors are space related such as mobility harmony outposts weaknesses structures squares files and diagonals Other factors are related to time and to the way the moves unfold tempo initiative a threat an attack Modern club players need to be able to suppress their need for immediate gratification In order to gain the upper hand you often have to live with uncertain compensation With the help of many fascinating examples Kuljasevic teaches you the essential skill of taking calculated risks After studying *Beyond Material* winning games by sacrificing material will become second nature to you

Beyond Rationality Kenneth R. Hammond, 2007-01-04 With *Beyond Rationality* Kenneth R Hammond one of the most respected and experienced experts in judgment and decision making sums up his life's work and persuasively argues that decisions should be based on balance and pragmatism rather than rigid ideologies Hammond has long focused on the dichotomy between theories of correspondence whereby arguments correspond with reality and coherence whereby arguments strive to be internally consistent He has persistently proposed a middle approach that draws from both of these modes of thought and so avoids the blunders of either extreme In this volume Hammond shows how particular ways of thinking that are common in the political process have led to the mistaken judgments that created our current political crisis He illustrates this argument by analyzing penetrating case studies emphasizing the political consequences that arise when decision makers consciously or unconsciously ignore their adversaries particular mode of thought These analyses range from why Kennedy and Khrushchev misunderstood each other to why Colin Powell erred in his judgments over the presence of weapons of mass destruction in Iraq For anyone concerned

about the current state of politics in the U S and where it will lead us Beyond Rationality is required reading **Moving Higher Education Beyond Covid-19** Anna Visvizi,Miltiadis D.
