As the practices of public governance are rapidly changing, so must the theoretical frameworks for understanding the creation of efficient, effective, and democratic governance solutions. First published as a special issue of Policy Politics journal, this book explores the role of strategic management, digitalisation, and generative platforms in encouraging the co-creation of innovative public value outcomes. It considers why we must transform the public sector to drive co-creation and the importance of integrating different theoretical strands when studying processes, barriers, and outcomes. This book lays out important stepping stones for the development of new research into the ongoing transition to co-creation as a mode of governance. *STRATEGIC MANAGEMENT* Sreenivasa Rao Behara, 1980 *Strategic Management in the Arts* Lidia Varbanova, 2013-01-03

Strategic management is an essential element that drives an organisation's success, yet many cultural organizations have yet to apply strategic thinking and entrepreneurial actions within the management function. Varbanova reviews the existing theories and models of strategic management and then relates these specifically to cultural organisations. Also included are sections on entrepreneurship and innovations in the arts, considering the concept of a learning organisation, an organisation able to adapt its strategy within a constantly changing complex environment. The book is structured to walk the reader through each element of the strategic plan systematically. With a fresh approach, key questions, examples, international cases to connect theory with practice, and suggestions for further reading, this book is designed to accompany classes on strategic planning, cultural management, or arts management. **Fundamentals of Strategic Management'** 2007 Ed.
