The New US Strategy towards Asia William T Tow, Douglas Stuart, 2014-12-17 Barack Obama s rebalancing or pivot strategy intended to demonstrate continued US commitment to the Asia Pacific region in a variety of military economic and diplomatic contexts was launched with much fanfare in 2011 Implicit in the new strategy is both a focus on China engagement with and containment of and a heavy reliance by the United States on its existing friends and allies in the region

in order to implement its strategy This book explores the impact of the new strategy on America's regional friends and allies It shows how these governments are working with Washington to advance and protect their distinct national interests while at the same time avoiding any direct confrontation with China It also addresses the reasons why many of these regional actors harbour concerns about the ability of the US to sustain the pivot strategy in the long run Overall the book illustrates the deep complexities of the United States exercise of power and influence in the region *The New Pacific Community* Martin L Lasater, 2019-06-26 As the political and economic landscape in the Asian Pacific continues to shift the United States must re-evaluate its strategy toward the region In his book Martin Lasater explores U S interests in Asia considering strategies for attaining U S goals in the post containment era Citing numerous strategic options for the United States Lasater recommends a strategy of integration as being best suited for the region through the end of the century **By More Than Providence** Michael J. Green, 2017-03-21 Soon after the American Revolution certain of the founders began to recognize the strategic significance of Asia and the Pacific and the vast material and cultural resources at stake there Over the coming generations the United States continued to ask how best to expand trade with the region and whether to partner with China at the center of the continent or Japan looking toward the Pacific Where should the United States draw its defensive line and how should it export democratic principles In a history that spans the eighteenth century to the present Michael J Green follows the development of U S strategic thinking toward East Asia identifying recurring themes in American statecraft that reflect the nation's political philosophy and material realities Drawing on archives interviews and his own experience in the Pentagon and White House Green finds one overarching concern driving U S policy toward East Asia a fear that a rival power might use the Pacific to isolate and threaten the United States and prevent the ocean from becoming a conduit for the westward free flow of trade values and forward defense *By More Than Providence* works through these problems from the perspective of history's major strategists and statesmen from Thomas Jefferson to Alfred Thayer Mahan and Henry Kissinger It records the fate of their ideas as they collided with the realities of the Far East and adds clarity to America's stakes in the region especially when compared with those of Europe and the Middle East *East Asia's Grand Strategies* Ramon Pacheco Pardo, Jung H. Pak, 2025-10-01 An in-depth exploration of the strategic dynamics shaping East Asia's future on the world stage East Asia is the epicenter of twenty-first century geopolitics where military economic and diplomatic strategies intersect in complex and often unpredictable ways As the region becomes increasingly central to global power dynamics understanding the strategies that drive the actions of powers there is more critical than ever *East Asia's Grand Strategies* offers the first comparative analysis of the grand strategies of twelve East Asian powers and reveals how they shape their foreign policies balancing external pressures with domestic political realities In this edited volume experts from the region provide non-Western perspectives and fresh insights into the unique factors influencing each case's grand strategy The chapters illuminate patterns that are critical for understanding East Asia's role in global politics today Scholars students and
