continues to break new ground with revised and updated strategies based on evidence from the most recent studies in the field. From the myriad of related research available, only those studies with genuine potential for improving the practices of teachers and schools have been included with the aim of facilitating high quality learning and social outcomes for all learners in schools. Updates to this new edition include four new chapters on response to intervention, universal design for learning, inter-agency cooperation, and one on the Finnish education system, over 350 new references, an even wider international focus including evidence drawn from Asia, references to recent developments in neuroscience, a new companion website with extra case studies, links to further reading, journal articles and videos, and an interactive quiz at www.routledge.com/cw/mitchell. This book will be essential reading for anyone with a vocational or academic interest in evidence-based special educational needs teaching strategies, whether a student in initial teacher education or a qualified classroom teacher, teacher educator, educational psychologist, special needs coordinator, parent consultant, or researcher. David Mitchell is an Adjunct Professor in the College of Education, University of Canterbury, Christchurch, New Zealand, and a consultant in inclusive education. This is the book I wish I had written, synthesizing an enormous literature focused on special needs students. It is robust, it is readable, and it is your right hand resource. A stunner of a book. Professor John Hattie, University of Melbourne, author of *Visible Learning*.

Teaching Exceptional Children Mojdeh Bayat, 2016-11-10. *Teaching Exceptional Children* is an ideal textbook for introductory graduate and undergraduate courses on early childhood special education and teaching in inclusive classrooms. Bayat's clear and accessible writing, a visually appealing design, and focused pedagogy in each chapter help make it possible to cover a significant amount of material. This powerful text identifies specific behavioral characteristics and presents theoretical information grounded in neuroscience and child development research for a wide range of disabilities. Research-based best practices for effectively working with children with various disabilities in inclusive classrooms are provided in each chapter. The second edition has been fully updated based on the DSM 5 and includes new sections on contemporary issues in inclusion of children with disabilities in early childhood classrooms, such as challenging behaviors, using technology at risk, children promoting mental health, and family issues. A robust pedagogical program, along with online resources for instructors and students, provides full support. Chapter Objectives and Key Terms help frame each chapter. Discussion, Critical Thinking, Essay, Short Answer, and Review Questions at the beginning, throughout, and concluding chapters prompt students to fully engage with the material. Homework, Field Assignments, provide opportunities for students to apply their knowledge to real world situations. Real Life Vignettes illustrate concepts in action. Color Photos, Figures, and Tables clarify concepts in a visually engaging way. Recommended Resources and References offer guidance for further study. The companion website <http://routledgegettextbooks.com/textbooks/9781138802209> includes instructor resources for teaching and planning, including an Instructor's Manual with additional ideas for assignments and projects, web links, and video links, with reflection questions, a test bank, and PowerPoint lecture slides.
