Strategic Theory for the 21st Century: The Little Book on Big Strategy Harry R. Yarger, 2006 Strategic Theory for the 21st Century Harry Richard Yarger, 2006 The word strategy pervades American conversation and our news media and is most often used as a general term for a plan a concept a course of action or a vision of the direction in which to proceed at the personal organizational and governmental local state or federal levels Such casual use of the term to describe nothing more than what we would like to do next is inappropriate and belies the complexity of true strategy and strategic thinking This little book talks about big strategy strategy at the highest levels of the nation state It is applicable to grand strategy national security strategy national military strategy and regional or theater strategy The monograph does not propose a strategy for the United States rather it provides a framework for considering strategy at any of the levels mentioned above It is an examination of theory exploring those aspects of strategy that appear to have universal application The theory also may have application to the strategy of nonstate actors institutions and businesses but the explicit purpose and perspective offered herein focus on the nation state *The Strategist's Handbook* Timothy Galpin, 2023 The Strategist's Handbook is a collection of the best materials insights tools and templates that comprise the core Strategy course taught in the undergraduate MBA Executive MBA and Post graduate Diploma programs at the Sa d Business School University of Oxford

Multilateral Asian Security Architecture See Seng Tan,2015-07-16 This book provides a comparative assessment of the material and ideational contributions of five countries to the regional architecture of post Cold War Asia In contrast to the usual emphasis placed on the role and centrality of the Association of Southeast Asian Nations ASEAN in Asia s multilateral architecture and its component institutions this book argues that the four non ASEAN countries of interest here 3 4 Australia Japan China and the United States 3 4 and Indonesia have played and continue to play an influential part in determining the shape and substance of Asian multilateralism from its pre inception to the present The work does not contend that existing scholarship overstates ASEAN s significance to the successes and failures of Asia s multilateral enterprise Rather it claims that the impact of non ASEAN stakeholders in innovating multilateral architecture in Asia has been understated Whether ASEAN has fared well or poorly as a custodian of Asia s regional architecture the fact remains that the countries considered here notwithstanding their present discontent over the state of that architecture are key to understanding the evolution of Asian multilateralism This book will be of much interest to students of Asian politics international organisations security studies and IR more generally

Jews vs. Rome Barry Strauss,2025-08-19 A new history of two centuries of Jewish revolts against the Roman Empire drawing on recent archeological discoveries and new scholarship by leading historian Barry Strauss Jews vs Rome is a gripping account of one of the most momentous eras in human history the two

hundred years of ancient Israel's battles against Rome that reshaped Judaism and gave rise to Christianity Barry Strauss vividly captures the drama of this era highlighting the courageous yet tragic uprisings the geopolitical clash between the empires of Rome and Persia and the internal conflicts among Jews Between 63 BCE and 136 CE the Jewish people launched several revolts driven by deep seated religious beliefs and resentment towards Roman rule Judea a province on Rome's eastern fringe became a focal point of tension and rebellion Jews vs Rome recounts the three major uprisings the Great Revolt of 66-70 CE which led to the destruction of Jerusalem and the Temple culminating in the Siege of Masada where defenders chose mass suicide over surrender the Diaspora Revolt ignited by heavy taxes across the Empire and the Bar Kokhba Revolt We meet pivotal figures such as Simon Bar Kokhba but also some of those lesser known women of the era like Berenice a Jewish princess who played a major role in the politics of the Great Revolt and was improbably the love of Titus Rome's future emperor and the man who destroyed Jerusalem and the Temple Today echoes of those battles resonate as the Jewish nation faces new challenges and conflicts Jews vs Rome offers a captivating narrative that connects the past with the present appealing to anyone interested in Rome Jewish history or the compelling true tales of resilience and resistance

Gray, 2011 All would be strategists would benefit by some formal education However for education in strategy to be well directed it needs to rest upon sound assumptions concerning the eternal nature yet ever shifting character meaning and function of strategy as well as the range of behaviors required for effective strategic performance The author emphasizes the necessity for strategic education to help develop the strategic approach the way of thinking that can solve or illuminate strategic problems He advises that such education should not strive for a spurious relevance by presenting a military variant of current affairs The author believes that the strategist will perform better in today's world if he has mastered and can employ strategy's general theory The Australia-Japan Defence and Security Relationship 1945-2021 Peter McDermott, 2022-05-05 McDermott examines the origins development and prospects for the Australia and Japan Defence and Security Relationship In 1945 Japan and Australia were foes today they are partners in security defence and military matters each the other's most important strategic ally after the United States As the region faces threats from an increasingly assertive China there is a growing prospect of conflict particularly in Northeast Asia McDermott discusses how Japan and Australia may cooperate in military action Using previously classified government documents and interviews with those involved in the decisions as well as his own experiences McDermott examines how political imperatives have shaped the security side of the AJDSR He offers new insights into the history and future of the relationship An essential read for students and scholars of Asia Pacific and Indo Pacific security Educating International Security Practitioners: Preparing to Face the Demands of the 21st Century International Security Environment James M. The Seven Military Classics Of Ancient China Ralph D. Sawyer, 2020-04-07 *The Seven Military Classics* is one of the most profound studies of warfare ever written a stanchion in sinological and military history It presents an Eastern tradition of strategic

thought that emphasizes outwitting one's opponent through speed, stealth, flexibility and a minimum of force, an approach very different from that stressed in the West. Safeguarded for centuries by the ruling elite of imperial China, even in modern times these writings have been known only to a handful of Western specialists. This volume contains seven separate essays written between 500 BCE and 700 CE that preserve the essential tenets of strategy distilled from the experience of the most brilliant warriors of ancient China.

Mapping the Third Offset: Australia, the United States and Future War in the Indo-Pacific Brendan Thomas-Noone, 2017-12-05

The United States is facing multiple challenges to sustaining its military technological edge in the Indo-Pacific. The proliferation of advanced missiles, submarines, satellites and other technology has raised the costs and risks for the United States in a regional conflict. Access to advanced technology and innovation has spread, raising the importance of the private sector in maintaining military superiority but also generating new centres of technological progress. The United States' current defence strategy and capabilities are increasingly economically unsustainable and its defence budget is stagnating due to political polarisation in Congress. The Third Offset is a set of strategies that aims to bolster US conventional military power by mobilising innovation, new technologies and institutional reform. The United States is placing bets on a series of new technologies from artificial intelligence to hypersonic weapons that will allow its military to project force in contested environments. Some of these technologies will, in theory, allow for more economically sustainable military operations and capabilities. Reforming US defence institutions to prioritise innovation and seeking ways to take advantage of new technologies in the private sector are attempts to embed and sustain US military advantage. The direction of the Third Offset and its success or failure should inform Australia's strategic outlook. Canberra should seek to expand engagement with the Third Offset particularly through the following institutional aspects:

- A United States-Australia Defence Technology Workshop should be established to generate new ideas around Indo-Pacific technological trends, investment and new military concepts.
- Canberra should explore the possibility of hosting or jointly funding an international Defence Innovation Unit Experimental Office providing strategic coordination on technological developments, resourcing and opportunities for Australian defence firms.
- Australia needs to expand its engagement with the United States on the testing exercises and simulations that will form new Third Offset military concepts.
