**United Nations and the Development of Collective Security** Dan Sarooshi, 1999 This book examines one of the most important challenges facing the United Nations today the effective and lawful use of force by or under the authority of the UN to maintain or restore peace It makes a significant contribution to the content of the law pertaining to the use of force by the UN and provides guidance as to the likely future developments in the legal framework governing collective action to maintain peace under the auspices of the United Nations **International Organizations** Jan Klabbers, 2017-05-15

International organizations have come to occupy a central position in international governance exercising many public functions and facilitating political debate amongst states and other actors though it is only recently that the focus of legal discussions has begun to shift to controlling the activities of organizations This volume assembles sixteen important essays addressing various issues relating to the law of international organizations highlighting theoretical issues and ongoing political debates and emphasizing issues of control The introductory essay provides an overview of the development of the politico legal debate and situates the law of international organizations historically and in its contemporary context The

Oppenheimer Sir Norman Angell Raymond Aron Henri Saint Simon Immanuel Kant David Easton etc scientists and more so the Founding Fathers of The United Nations in 1945 But like Gods effort all their efforts also have fallen on mans deaf ears leading humanity to a perpetual perish Hosea 4 6 Using a case study methodology this book has established that various forms of conflict perennially scourging the international community are influenced by obsessive self seeking political passions for national interest defined in terms of power that these passions are cunningly packaged in dangerous principles of sovereign equality and domestic jurisdiction and the doctrine of survival of the fittest that it is these viruses that have always undermined and consequently retarded the United Nations efforts to realize fully its mandate as the chief custodian of world peace and security as was intended by its Founding Fathers in 1945 when all nation states had already proved totally incapable of achieving this elusive goal thus leading to the eruption of both World War I and II that this tragedy is a function of mans paradoxical nature his appetite for both peace and war that although man is endowed with a unique natural ability to listen and understand better than all other members of the animal kingdom unfortunately like Adam and Eve man is a perpetual hostage to his own double standard nature which consequently does not allow him to pass an acid test on the virtue of pacta sunt servanda honesty and finally that this is why the wishes of the Founding Fathers of the United Nations contained in both the preamble and entire charter have always failed to bear fruit in full since its inception Hence an urgent need for an emergency revival of the original concept of this world bodys role by depreciating the existing dangerous supremacy of nation states sovereignty and legitimacy in appreciation of the sovereignty and legitimacy of the United Nations as a panacea This pragmatic innovation is cost effective and therefore extremely necessary Like a nation states effectively authoritative responsibility over its intercitizen interaction within its respective nation state jurisdiction this newly revitalized world body could similarly possess an effectively authoritative responsibility over its interstate interaction including acts of all nonstate actors within its international jurisdiction Also it would be able to contain both those viruses stated above and pathological tendencies of certain temporary insane actors from emotionally resorting to thermonuclear biological or any other means of suicide mass terrorism genocide as ones payoff option to the sources of ones long helpless frustration and suffering that could consequently lead humanity to an automatic global Doomsday simply because of absence of such a needed world body to serve as an umpire for all in conformity with the wishes of the UN Founding Fathers
