Corporate Universities puts smart learning at the forefront with strategies to secure alignment between organization and environment which need both speed of learning and learning in the right direction. Across the globe, corporate universities have emerged as vehicles of such strategy driven learning. Corporate Universities bridges the gap between the disciplines of strategic management and corporate learning, combining general strategy with the concept of corporate universities which to date has predominantly been an HR topic. Readers will find new concepts as well as generic corporate university strategies to link corporate strategy to organizational learning. Effective Budgeting for Businesses Today Dominic Shum, 2019-02-11 Having been in industry for more than twenty eight years and being involved in business planning and budgeting during that period I have been conducting training and facilitating EMBA classes on similar topics In such sessions I often encourage participants and students to ask question as I have considerable experiences in budgeting for them to pick my brains on However in most cases the time allocated for such seminars or lectures are limited and participants and students have asked questions regarding my experiences in the topic beyond the contact hours stipulated while others have requested for more literature on the subject It is with this background that I find motivation to write this book to fulfil the participants demand for more information and to reach out to a wider audience on the topic of budgeting This book is thus drawn upon my own experiences as a professional in the field and feedback given by my many participants and students who attended by seminars or classes It is my hope that this book can provide clarity on the topic and is easily assimilated by all who does budgeting or is studying how to do it Happy reading and profiting from it
