Strategy For The West:

The Strategy on the Western Front (1914-1918) Herbert Howland Sargent, 1920 *A Grand Strategy for the West* Helmut Schmidt, 1981 **Soviet Strategy Toward Western Europe** Edwina Moreton, Gerald Segal, 2021-01-26 This book first published in 1984 carefully examine the political debate surrounding nuclear weapons and superpower policies in Cold War Western Europe It seeks to analyse a distinctly European view in Soviet policy as opposed to a superpower view It examines Soviet domestic and foreign policy economic and military practice with the aim of understanding and countering the Soviet threat to Western Europe Western Europe In Soviet Global Strategy Ray S. Cline, 2019-03-20 Soviet global strategy long established and well understood by the Kremlin leaders is to intimidate weak and fearful governments exploit indigenous difficulties disrupt social order and promote communist revolutions In this volume European and American scholars describe the USSR's land and sea targets on and surrounding West Europe where t **Western Europe In Kissinger's Global Strategy** Argyris G Andrianopoulos, 1988-08-31 **Military Strategy** Vasiliï Danilovich Sokolovskii, 1972 Practical Field Exercises in Minor Tactics and Strategy John Philip Wisser, 1903 *The West's East* Lukas Milevski, 2018-06-01 In 2004 the Baltic states Estonia Latvia Lithuania finalized their return to the West by joining NATO and the EU after definitively throwing off their captive nations status by regaining independence in 1991 This has not however halted resurgent Russian revanchism in the region given Russia's aggressive actions starting in Ukraine in 2014 defense of the Baltic has gained a new urgency and prominence In The West's East Lukas Milevski places the Baltic states in strategic and historical perspective Through these nations experiences he sheds light on how independent states have been able to persist despite being surrounded by predatory great powers The work offers a deep overview of the region's history from the indigenous Baltic tribes which populated it to the post Cold War era followed by recent political analogies of West Russia relations Analyses of today's strategic balance in the region indicate the various actors geopolitical outlooks strategic cultures military capabilities and non military security vulnerabilities As Milevski argues the NATO Russia relationship will play the major role in any potential conflict in the Baltic but neutrals Finland and Sweden must also be factored into the strategic analysis Using the logic of strategy he anticipates potential military interaction in the region step by step from deterrence to Russia's choice of offensive strategy to area denial and NATO's return and break into the Baltic theater and finally war termination to determine the answer to the ultimate question how much defense for the Baltic is enough The West's East gives both experts and policymakers alike the background and framework for thinking strategically about a region that has re-emerged as a significant geopolitical concern in the Putin Trump era **A Grand Strategy for the West** Helmut D. Schmidt, **Exercises in Strategy and Tactics** Hugo von Gizycki, 1915 *The Challenge of Stability and Security in West Africa* Alexandre Marc, Neelam Verjee, Stephen Mogaka, 2015-06-19 Since independence the West African sub region has been an arena for a number of large scale conflicts and civil wars as well as simmering and low intensity uprisings Contrary

to perceptions West Africa in its post independence history has experienced fewer conflict events and fatalities from conflict than the other sub regions on the continent The turn of the millennium has witnessed the recession of large scale and conventional conflict and it has ushered in new and emerging threats The specters of religious extremism maritime piracy and narcotics trafficking threaten to undermine some of the progress achieved in recent years The Challenge of Stability and Security in West Africa critically examines the key drivers of conflict and violence and the way in which they impact the countries of the sub region In addition to emerging threats these drivers include the challenges of youth inclusion migration sub regional imbalances and extractives as well as challenges related to the fragility of political institutions and managing the competition for power reform of the security sector and weakness of institutions related to land management The book explores how the sub region under the auspices of the regional organization ECOWAS has become a pioneer on the continent in terms of addressing regional challenges The Challenge of Stability and Security in West Africa also identifies key lessons in the dynamics of resilience in the face of political violence and civil war drawn from Cote d'Ivoire Liberia and Sierra Leone that can be useful for countries around the world in similar situations It incorporates knowledge and findings from leading experts and provides insights from academics and development practitioners Finally the book identifies possible policy and programmatic responses and directions for policy dialogue at the national and international levels

Transformation of Resource Towns and Peripheries Greg Halseth, 2016-07-01 Most developed economies including single industry and resource dependent rural or small town regions are transforming rapidly as a result of social political and economic change Collectively they face a number of challenges as well as new opportunities This international collaboration describes a critical political economy framework that will be useful for understanding these transitions Transformation of Resource Towns and Peripheries describes the multi faceted process of transition and change in resource dependent rural and small town regions since the end of the Second World War The book incorporates international case studies from Australia Canada Finland and New Zealand with the express purpose of highlighting similarities and differences in patterns and practices in each country Chapters explore three main themes how corporate ties and trade linkages are changing and impacting rural communities and regions how resource industry employment is changing in these small communities and how local community capacity and leadership are working to mitigate challenges and take advantage of new opportunities This book will be of interest to students of regional studies geography and rural and industrial sociology It will also have a strong appeal to policy makers and local regional development practitioners

... The Strategy of Minerals George Otis Smith, 1919 **The Strategy of the Great War** William Lenhart McPherson, 1919 **Exercises in strategy and tactics [by H. von Giżycki], tr. by S. Wilkinson** Hugo von Giżycki, 1887 **US Defence Strategy from Vietnam to Operation Iraqi Freedom** Robert R.
