**Memory, Heritage, and Preservation in 20th-Century England** David Strittmatter, 2023-03-09 This book explores commemoration practices and preservation efforts in modern Britain focusing on the years from the end of the First World War until the mid 1960s The changes wrought by war led Britain to reconsider major historical episodes that made up its national narrative Part of this process was a reassessment of heritage sites because such places carry socio political meaning as do the memorials that mark them This book engages the four way intersection of commemoration preservation tourism and urban planning at some of the most notable historic locations in England The various actors in this process from the national government and regional councils to private organizations and interested individuals did nothing less than engineer British national memory The author presents case studies of six famous British places namely battlefields Hastings and Bosworth political sites Runnymede and Peterloo and world s fairgrounds the Crystal Palace and Great White City In all three genres of heritage sites one location developed through commemorations and tourism while the other anti sites simultaneously faltered as they were neither memorialized nor visited by the masses Ultimately the book concludes that the modern social and political environment resulted in the revival creation or erasure of heritage sites in the service of promoting British national identity A valuable read for British historians as well as scholars of memory public history and cultural studies the book argues that heritage emerged as a discursive arena in which British identity was renegotiated through times of transitions both into a democratic age and an era of geopolitical decline

Immortal Memories John Cairney, 2014-01-25 The Immortal Memory remains the centrepiece of the traditional Burns Supper and although that rite might be seen by some to have had its day the Immortal Memory itself still retains its importance and prestige to Burns lovers all over the world It is an honour to be invited to present this toast and it is to honour this status and to further respect its subject that Dr Cairney s third book on Burns is devoted to his Immortal Memory The extraordinary thing is that the contributors while dealing with the same man all appear to see him so differently but what they all still have in common is a love and admiration for the man and his work This is the factor that makes Burns unique that he has the same appeal for so many different kinds of people Shakespeare and Memory Hester Lees-Jeffries, 2013-08-22 Shakespeare and Memory explores Shakespeare s plays and poems in the light of current interest in memory studies It sets out key features of the historical religious and cultural context of Shakespeare s own time **Book Forum**, 1978
