management education the second theme focuses on a perceived need for new business models and how to design and build them the third theme addresses the question of the impact of the business school on business and society given the increasingly academic pursuits of business schools and their often weak links to the business community the so called rigour relevance dilemma and the fourth theme concerns how to map and design business school futures in an increasingly volatile uncertain complex and ambiguous crisis oriented environment This impressive collection of insights from business management leaders from across the globe is inspiring reading for higher education leaders policy makers and business leaders seeking insight into the future of management education The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
