Alchemy of Combat is a process of breakdown and renewal and from that breakdown can come the transformational discovery of meaning and purpose of a higher awareness with an expanded and inspired worldview and uplifting happiness for the soul Larry R Decker Ph D provides a guide through this process for therapists as well as family friends loved ones colleagues and others caring for combat veterans who are seeking to move through Posttraumatic Stress Disorder into a renewal of life through Posttraumatic Growth **Bridging the Gap Between Combat Veterans and Civilians** Ph D.

Jonathan Hauser,2018-08-16 Description for Amazon Have you deployed into combat Are your family member or loved one a

soldier Or are you a behavioral health provider who treats soldiers with deployment stress or PTSD This pamphlet is intended to make things better for you Everyone has heard of PTSD Post traumatic Stress Disorder and the cliché is that every military veteran has it I am a psychologist who treats active duty soldiers and yes I treat PTSD But there are many significant ways in which combat changes a person which are not part of behavioral health treatment Also professional soldiers are part of a subculture which differs significantly in some ways from the general civilian norm Soldiers need to track this to adjust to civilian life Behavioral health providers will be more effective if they take subcultural issues into account when they are treating soldiers I have spent many hours learning about military subcultures there are many and the effects of combat Soldiers told me what was going on and eventually I was able to understand and explain these issues to soldiers and their families in plain commonsense language This pamphlet is not a substitute for behavioral health treatment I hope to accomplish three things 1 make some things clear to you that will make the transition to civilian or garrison life easier for the combat arms soldier 2 make it easier for the soldier's family to understand why he or she acts the way he she does 3 Highlight some of the issues that can interfere with effective behavioral health treatment If you are a combat veteran I want you to know this pamphlet doesn't just brief well it has been extensively field tested Let me share with you some of the lessons your brothers and sisters taught me To the family member or loved one I say There are reasons why your soldier acts the way he or she does and reasons why he she doesn't like to talk about it Understanding that may help you To the behavioral health provider I say Bless you for what you do I hope that you may benefit from the lessons I learned
