Street Furniture From Design To Box:

Street Furniture Design Eleanor Herring, 2016-07-14 Eleanor Herring's unique study of street furniture in post war Britain considers how objects which are now familiar parts of our urban environment were designed to populate public spaces Herring explores the design of lampposts post boxes parking meters and signage in the context of a government backed by various bodies keen to propagate good modern design in a Britain whose towns and cities had been laid waste by bombing and the privations of war She also considers the innate conservatism of local communities and councils wary of a standardised street design imposed from above She traces how the design of street furniture became the site of a fierce struggle which exposed deep seated anxieties about class taste and power Herring's original research draws on archival material and on interviews with leading figures in urban design including graphic designer Margaret Calvert and industrial designer Kenneth Grange

Street Furniture Lynn Pearson, 2022-02-15 A fascinating journey through the history of street furniture in the UK written by a leading authority on the topic Milestones sign posts benches and lamp posts are all included alongside fascinating obscure examples
