## **Street Lives An Oral History Of Homeless Americans:**

**Street Lives** Steven VanderStaay,1992 A collection of experiences told by homeless individuals and families from all over the country discussing street life crises or processes that caused their homelessness and solutions these people are working on to support themselves **A People's History of Poverty in America** Stephen Pimpare,2011-06-07 Tens of millions of Americans currently live in poverty more and more of them in extreme poverty But the words we use to describe them tend to obscure rather than illuminate the human lives and real life stories behind the statistics A sympathetic social history that allows poor people past and present to tell their own remarkably similar stories Booklist **A People s History of Poverty in America** movingly brings to life poor people s everyday battles for dignity and respect in the face of the judgment control and disdain that are all too often the price they must pay for charity and government aid Through prodigious research Stephen Pimpare has unearthed poignant and often surprising testimonies and accounts that range from the early days of the United States to the complex social and economic terrain of the present A work of sweeping analysis **A People s History of Poverty in America** reminds us that poverty is not in itself a moral failure though our failure to understand it may well be **Life Underground** Terry Williams,2024-02-06 Winner 2024 2025 New York City Book Awards New York Society Library Aboveground Manhattan s Riverside Park provides open space for the densely populated Upper West Side Beneath its surface run railroad tunnels disused for decades where over the years unhoused people have taken shelter The sociologist Terry Williams ventured into the tunnel residents world seeking to understand life on the margins and out of sight He visited the tunnels between West Seventy Second and West Ninety Sixth Streets hundreds of times from 1991 to 1996 when authorities cleared them out to make way for Amtrak passenger service and again between 2000 and 2020 **Life Underground** explores this society below the surface and the varieties of experience among unhoused people Bringing together anecdotal material field observations photographs transcribed conversations with residents and excerpts from personal journals Williams provides a vivid ethnographic portrait of individual people day to day activities and the social world of the underground and their engagement with the world above which they call topside He shows how marginalized people strive to make a place for themselves amid neglect and isolation as they struggle for dignity Featuring Williams s distinctive ethnographic eye and deep empathy for those on the margins **Life Underground** shines a unique light on a vanished subterranean community **The Insatiability of Human Wants** Regenia Gagnier,2000-12 What is the relationship between our conception of humans as producers or creators as consumers of taste and pleasure and as creators of value Combining cultural history economics and literary criticism Regenia Gagnier s new work traces the parallel development of economic and aesthetic theory offering a shrewd reading of humans as workers and wanters born of labor and desire **The Insatiability of Human Wants** begins during a key transitional moment in aesthetic and economic theory 1871 when both disciplines underwent a turn from production to consumption models In economics an emphasis on the theory of value and

the social relations between land labor and capital gave way to more individualistic models of consumerism Similarly in aesthetics theories of artistic production or creativity soon bowed to models of taste pleasure and reception Using these developments as a point of departure Gagnier deftly traces the shift in Western thought from models of production to consumption From its exploration of early market logic and Kantian thought to its look at the aestheticization of homelessness and our own market boom *The Insatiability of Human Wants* invites us to contemplate alternative interpretations of economics aesthetics and history itself *The Ethics of Homelessness: Philosophical Perspectives*,2020-01-20 This new and expanded edition of G John M Abbarno s anthology *The Ethics of Homelessness* underscores what is ignored in plain sight people without a home or dwelling are also without privacy and dignity It is argued that they lack moral standing The chapters uncover the harsh realities of poverty where economic value overrides competing human values Naomi Zack argues that homelessness is symbolic of society s materialistic values It has a tendency to resist sufficient charity and perpetuates conditions of injustice Uma Narayan questions whether the homeless have protection under the U S Constitution Other authors present an enlarged sphere of homeless to include runaway children refugees adoptees and the disabled The book demonstrates the value of applied philosophy *Sacred Shelter* Susan Celia Greenfield,2021-05-20 An inside look at an interfaith program for the homeless in New York City including in depth stories of those who have graduated and made new lives In a metropolis like New York homelessness can blend into the urban landscape For Susan Greenfield however New York is the place where a community of resilient remarkable individuals is yearning for a voice *Sacred Shelter* follows the lives of thirteen formerly homeless people all of whom have graduated from an interfaith life skills program for current and former homeless individuals in the city Through interviews these individuals share traumas from their youth their experience with homelessness and the healing they ve discovered through community and faith Edna Humphrey talks about losing her grandparents father and sister to illness accident and abuse Lisa Sperber discusses her bipolar disorder and her whiteness Dennis Barton speaks about his unconventional path to becoming a first generation college student and his journey to reconnect with his family The memoirists share stories about youth family jobs and love They describe their experiences with racism mental illness sexual assault and domestic violence Each of the thirteen storytellers honestly expresses his or her broken heartedness and how finding community and faith gave them hope to carry on Interspersed are reflections from program directors clerics mentors and volunteers including the cofounder of the program While *Sacred Shelter* does not tackle the socioeconomic conditions and inequities that cause homelessness it provides a voice for a demographic group that continues to suffer from systemic injustice and marginalization *Cityscapes in History* Heléna Tóth,2016-05-23 *Cityscapes in History* Creating the Urban Experience explores the ways in which scholars from a variety of disciplines history history of art geography and architecture think about and study the urban environment The concept cityscapes refers to three different dynamics that shape the development of the urban environment the interplay

between conscious planning and organic development the tension between social control and its unintended consequences and the relationship between projection and self presentation as articulated through civic ceremony and ritual The book is structured around three sections each covering a particular aspect of the urban experience The City Planned looks at issues related to agency self perception the transfer of knowledge and the construction of space The City Lived explores the experience of urbanity and the construction of space as a means of social control And finally The City as a Stage examines the ways in which cultural practices and power relations shape and are in turn shaped by the construction of space Each section combines the work of scholars from different fields who examine these dynamics through both theoretical essays and empirical research and provides a coherent framework in which to assess a wide range of chronological and geographical subjects Taken together the essays in this volume provide a truly interdisciplinary investigation of the urban phenomenon By making fascinating connections between such seemingly diverse topics as 15th century France and modern America the collection raises valuable questions about scholarly approaches to urban studies

**A Roof Over My Head, Second Edition** Jean Calterone Williams, 2016-10-07 Based upon extensive ethnographic data A Roof Over My Head examines the lives of homeless women who cope with domestic violence low income housing shortages and poverty The author draws upon interviews with homeless women interviews with housed people and finally evaluations of shelter services philosophies and policies to get at the causes and social constructions of homelessness A Roof Over My Head is a groundbreaking study that unveils the centrality of abuse and poverty in homeless women's lives and outlines ways in which societal responses can and should be more effective The second edition explores recent attempts to integrate homeless and battered women's shelters and recent research on domestic violence as a cause of homelessness It contains a new introduction that analyzes the most recent homeless policy developments and paints a picture of the homeless population today With updated statistics and policy information throughout the second edition of A Roof Over My Head illustrates why ending homelessness in the United States continues to present a thorny and complex challenge

**Homelessness** Neil Larry Shumsky, 2012-01-16 This book presents an unflinching investigation of homelessness in the United States a problem that has been with us since the arrival of the first English settlers nearly 400 years ago The terms historically used to describe them include bums hoboes migrants street people transients tramps and vagrants Just as varied as the words we have used to describe them are the reasons many people have found themselves living in the land of opportunity without permanent residence The book considers homelessness and its distinctive character in three periods of American history the era of tramps and hoboes in the late 1800s early 1900s the era of transients and migrants in the 1930s and the era of homeless and street people in the last 40 years It clarifies the multiple meanings of the word homeless today and demonstrates that homelessness is a symptom of more than one problem leading to confusion about the issue of homelessness and hampering attempts to reduce its occurrence Author Neil Larry Shumsky PhD also postulates that the treatment of homelessness in England before the

colonization of North America laid the foundation of pervasive American attitudes and practices

**An Ethnography of Global Landscapes and Corridors** Loshini Naidoo, 2012-03-09 The chapters presented in this book draw on ethnography as a methodology in a variety of disciplines including education management design marketing ecology and scientific contexts illustrating the value of a qualitative approach to research design The chapters discuss the use of traditional ethnographic methods such as immersion observation and interview as well as innovative ethnographical methods which have been influenced by the new digital culture The latter challenges notions of identity field and traditional culture such that people are able to represent themselves in the research process rather than be represented New approaches to ethnography also examine the use and implication of images in representation as well as critically examining the role and impact of the researcher in the process

**City for Sale** Chester Hartman, 2002-10-01 San Francisco is perhaps the most exhilarating of all American cities its beauty cultural and political avant gardism and history are legendary while its idiosyncrasies make front page news In this revised edition of his highly regarded study of San Francisco s economic and political development since the mid 1950s Chester Hartman gives a detailed account of how the city has been transformed by the expansion outward and upward of its downtown His story is fueled by a wide range of players and an astonishing array of events from police storming the International Hotel to citizens forcing the midair termination of a freeway Throughout Hartman raises a troubling question can San Francisco s unique qualities survive the changes that have altered the city s skyline neighborhoods and economy Hartman was directly involved in many of the events he chronicles and thus had access to sources that might otherwise have been unavailable A former activist with the National Housing Law Project San Franciscans for Affordable Housing and other neighborhood organizations he explains how corporate San Francisco obtained the necessary cooperation of city and federal governments in undertaking massive redevelopment He illustrates the rationale that produced BART a subway system that serves upper income suburbs but few of the city s poor neighborhoods and cites the environmental effects of unrestrained highrise development such as powerful wind tunnels and lack of sunshine In describing the struggle to keep housing affordable in San Francisco and the seemingly intractable problem of homelessness Hartman reveals the human face of the city s economic transformation

**Afropolitanism and the Novel** Ashleigh Harris, 2019-08-09 The place of the novel as a literary form in Africa is contested Its colonial origins and its unaffordability for most Africans make it a bad fit for the continent yet it was also central to the creation of most postcolonial African national literary canons These bipolar traditions remain unresolved in recent debates about Afropolitanism and the novel in Africa today This book extends this debate arguing that Africa s de realization in global representation and the global economy is reflected in the African novel becoming dominated by Afropolitan rather than African aesthetics styles and forms Drawing on close readings of a variety of major African novels of the 2000s the volume traces the tensions between the novel s complicity with and resistance to such de realization The book argues that current trends and experiments in African non realist genres

such as science fiction magical and animist realism Afro futurism and speculative environmentalism are the result of a preoccupation with such de realization The volume is a significant exploration into literary form and its social philosophical political and economic underpinnings It will be a must read for scholars students and researchers of African literature politics philosophy and culture studies

**Citizens without Shelter** Leonard C. Feldman, 2018-07-05 One of the most troubling aspects of the politics of homelessness Leonard C Feldman contends is the reduction of the homeless to what Hannah Arendt calls the abstract nakedness of humanity and what Giorgio Agamben terms bare life Feldman argues that the politics of alleged compassion and the politics of those interested in ridding public spaces of the homeless are linked fundamentally in their assumption that homeless people are something less than citizens Feldman s book brings political theories together including theories of sovereign power justice and pluralism with discussions of real world struggles and close analyses of legal cases concerning the rights of the homeless In Feldman s view the bare life predicament is a product not simply of poverty or inequality but of an inability to commit to democratic pluralism Challenging this reduction of the homeless *Citizens without Shelter* examines opportunities for contesting such a fundamental political exclusion in the service of homeless citizenship and a more robust form of democratic pluralism Feldman has in mind a truly democratic pluralism that would include a pluralization of the category of home to enable multiple forms of dwelling a recognition of the common dwelling activities of homeless and non homeless persons and a resistance to laws that punish or confine the homeless

**Homelessness in America** Robert Hartmann McNamara, 2008-08-30 Homelessness is one of the most compelling social problems in the United States Dating from the early years in Colonial America to the current problems relating to homeless women and children homelessness has been the topic of discussion of scholars social activists and policy makers Many types of social problems are linked to homelessness including poverty substance abuse foster care and crime As a result unpacking the issues has proven to be a challenge for anyone interested in

this topic Homelessness in America offers an assessment of what is known about each segment of the homeless population which contrary to conventional belief is comprised of a wide variety of faces from many backgrounds It explains linkages to other social issues and provides a balanced overview of homelessness in light of the varying perspectives on the topic While much of what has been written about homelessness has come from the academic perspective agendas often interfere with an accurate understanding of the problem Clearly there is a place for other types of perspectives including those that view homelessness through political and legal lenses These groups have provided us with a robust body of information within which we may better understand the questions relating to homelessness McNamara has brought together the voices of these groups in order to reveal the numerous political economic and social constraints that beset current attempts to solve homelessness In addition the commonly held belief that homelessness is a result of laziness or a poor work ethic is turned on its head to reveal that homelessness is truly a multifaceted and complex issue *StreetCities* Rae Bridgman,2006-01-01 A wonderful example of contemporary anthropology Irene Glasser Community Renewal Team CRT Hartford Connecticut

Benis,2000-03-02 Romanticism on the Road challenges critical orthodoxy by arguing that Wordsworth rejected the political dogmas of his age Refusing to ally with either radicals or conservatives after the French Revolution the poet seizes on vagrants to attack the binary thinking dominating public affairs and to question the value of the Georgian domestic ideal Drawing on current and historical discussions of homelessness the study offers a cultural history of vagrancy and explains why Wordsworth chose the homeless to bear his message *My Eyes Feel They Need to Cry* Martha Aladjem Bloomfield,2013-07-01 As intimate as they are inspiring these stories of transformation drawn from the oral histories of formerly homeless adults testify to the determination of the human spirit and the healing power of sharing one s journey This gripping collection gives voice to the traditionally voiceless inviting men and women from a variety of cultural and ethnic backgrounds to share their experiences of what it was like to live on the streets in cars under bridges and of how they discovered the inner motivation to change the course of their lives in a positive direction An important contribution to understanding how destructive patterns can be broken this book examines some key questions How do those who have suffered from homelessness and the hardships that accompany it find the inspiration and

courage to break the seemingly endless cycle transform their lives and become self sufficient What emotional price do they pay When do they realize that enough is enough How do they learn to trust new people when so many have disappointed them Homeless people can and do find a way off the streets as these men and women reveal through their stories paintings and poetry
