fear Join us on this journey to empower the next generation one click at a time *Street Smart* Samuel I Schwartz, 2015-08-18 On a Saturday morning in December 1973 a section of New York's West Side Highway collapsed under the weight of a truck full of asphalt The road was closed seemingly for good and the 80 000 cars that traveled it each day had to find a new way to their destinations It ought to have produced traffic chaos but it didn't The cars simply vanished It was a moment of revelation the highway had induced the demand for car travel It was a classic case of build it and they will come but for the first time the opposite had been shown to be true knock it down and they will go away Samuel I Schwartz was inspired by the lesson He started to reimagine cities most of all his beloved New York freed from their obligation to cars Eventually he found he was not alone Since the turn of the twenty first century a surreptitious revolution has taken place every year Americans are driving fewer miles And the generation named for this new century the Millennials are driving least of all Not because they can't afford to they don't want to They have better ideas for how to use their streets An urban transformation is underway and smart streets are at the heart of it They will boost property prices and personal fitness roll back years of congestion and smog and offer a transformative experience of American urban life From San Francisco to Salt Lake Charleston to Houston the American city is becoming a better and better place to be Schwartz's *Street Smart* is a dazzling and affectionate history of the struggle for control of American cities and an inspiring off road map to a more vibrant active and vigorous urban future *Street Smart* Richard A. Blake, 2021-11-21 New York has appeared in more movies than Michael Caine and the resulting overfamiliarity to moviegoers poses a problem for critics and filmmakers alike Audiences often mistake the New York image of skyscrapers and bright lights for the real thing when in fact the City is a network of clearly defined villages each with a unique personality Standard film depictions of New Yorkers as a rush hour mass of undifferentiated humanity obscure the connections formed between people and places in the City's diverse neighborhoods *Street Smart* examines the cultural influences of New York's neighborhoods on the work of four quintessentially New York filmmakers Sidney Lumet Woody Allen Martin Scorsese and Spike Lee The City's heterogeneous economic and ethnic districts where people live work shop worship and go to school often bear little relation to the image of New York City created by the movies To these directors their home city is as tangible as the smell of fried onions in the stairwell of an apartment building and it is this New York not the bustling glittery illusion portrayed in earlier films that shapes their sensibilities and receives expression in their films Richard A Blake shows how the Jewish enclaves on Manhattan's Lower East Side profoundly influence Sidney Lumet's most noted characters as they struggle to form and maintain their identities under challenging circumstances Both Woody Allen's light comedies and his more serious cinematic fare reflect the director's origins in the Flatbush neighborhood in Brooklyn and the displacement he felt after relocating to Manhattan Martin Scorsese's upbringing on Elizabeth Street in Manhattan's Little Italy resonates in his gritty portraits of urban modernity Blake also looks at the films of Spike Lee whose adolescence in Fort Greene a socioeconomically diverse Brooklyn neighborhood

exposed him to widely ranging views that add depth to his complicated treatises on power culture and race Lumet Allen Scorsese and Lee s individual identities were shaped by their neighborhoods and in turn their life experiences have shaped their artistic vision In Street Smart Richard A Blake examines the critical influence of place on the films of four of America s most accomplished contemporary filmmakers

Medical Student Ward Survival Manual Jeff Gusky,1982 *Rhetorics for Community Action* Phyllis Mentzell Ryder,2012-07-10 *Rhetorics for Community Action* Public Writing and Writing Publics by Phyllis Mentzell Ryder offers theory and pedagogy to introduce public writing as a complex political and creative action To write public texts we have to invent the public we wish to address Such invention is a complex task with many components to consider exigency that brings people together a sense of agency and capacity a sense of how the world is and what it can become All these components constantly compete against texts that put forward other public ideals opposing ideas about who really has power and who really can create change Teachers of public writing must adopt a generous response to those who venture into this arena Some scholars believe that to prepare students for public life university classes should partner with grassroots community organizations rather than nonprofits that serve food or tutor students They worry that a service related focus will create more passive citizens who do not rally and resist or grab the attention of government leaders or corporations With carefully contextualized study of an after school arts program an area soup kitchen and parks organizations among others Ryder shows that many so called service organizations are not passive places at all and she argues that the main challenge of public work is precisely that it has to take place among all of these compelling definitions of democracy Ryder proposes teaching public writing by partnering with multiple community nonprofits She develops a framework to help students analyze how their community partners inspire people to action and offers a course design that support them as they convey those public ideals in community texts But composing public texts is only part of the challenge Traditional newspapers and magazines through their business models and writing styles reinforce a dominant role for citizens as thinking and reading but not necessarily acting This civic role is also professed

Life on the Malecón Jon M. Wolseth,2013-10-18 *Life on the Malecón* is a narrative ethnography of the lives of street children and youth living in Santo Domingo Dominican Republic and the non governmental organizations that provide social services for them Writing from the perspective of an anthropologist working as a street educator with a child welfare organization Jon M Wolseth follows the intersecting lives of children the institutions they come into contact with and the relationships they have with each other their families and organization workers Often socioeconomic conditions push these children to move from their homes to the streets but sometimes they themselves may choose the allure of the perceived freedoms and opportunities that street life has to offer What they find instead is violence disease and exploitation the daily reality through which they learn to maneuver and survive Wolseth describes the stresses rewards and failures of the organizations and educators who devote their resources to working with

this population The portrait of Santo Domingo s street children and youth population that emerges is of a diverse community with variations that may be partly related to skin color gender and class The conditions for these youth are changing as the economy of the Dominican Republic changes Although the children at the core of this book live and sleep on avenues and plazas and in abandoned city buildings they are not necessarily glue and solvent sniffing beggars or petty thieves on the margins of society Instead they hold a key position in the service sector of an economy centered on tourism Life on the Malecón offers a window into the complex relationships children and youth construct in the course of mapping out their social environment Using a child centered approach Wolseth focuses on the social lives of the children by relating the stories that they themselves tell as well as the activities he observes The Art of Policymaking Georg Shambaugh,George E.
