Brooks, 2019-09-24 This volume offers film enthusiasts and teachers an investigation into what film critics do and examines what ideologies inform their evaluations By employing recent television programs and films and comparing them to older ones the study is able to trace changes in the methodologies of film and media critics The work argues for the emergence of neofuturism as a chosen method of interpretation contrasting with the dominance of postmodernism as the evaluative method through the early years of the new

millennium It also asks the questions who evaluates film and why In doing so the study questions the criteria for film evaluation the validity of some reviews and asks the question whether the evaluative system needs to change altogether

**Black Mecca** Zain Abdullah,2010-09-30 The changes to U S immigration law that were instituted in 1965 have led to an influx of West African immigrants to New York creating an enclave Harlem residents now call Little Africa These immigrants are immediately recognizable as African in their wide sleeved robes and tasseled hats but most native born members of the community are unaware of the crucial role Islam plays in immigrants lives Zain Abdullah takes us inside the lives of these new immigrants and shows how they deal with being a double minority in a country where both blacks and Muslims are stigmatized Dealing with this dual identity Abdullah discovers is extraordinarily complex Some longtime residents embrace these immigrants and see their arrival as an opportunity to reclaim their African heritage while others see the immigrants as scornful invaders In turn African immigrants often take a particularly harsh view of their new neighbors buying into the worst stereotypes about American born blacks being lazy and incorrigible And while there has long been a large Muslim presence in Harlem and residents often see Islam as a force for social good African born Muslims see their Islamic identity disregarded by most of their neighbors Abdullah weaves together the stories of these African Muslims to paint a fascinating portrait of a community s efforts to carve out space for itself in a new country The Delicate Balance Adrienne Evans

*Rhetorics for Community Action* Public Writing and Writing Publics by Phyllis Mentzell Ryder offers theory and pedagogy to introduce public writing as a complex political and creative action To write public texts we have to invent the public we wish to address Such invention is a complex task with many components to consider exigency that brings people together a sense of agency and capacity a sense of how the world is and what it can become All these components constantly compete against texts that put forward other public ideals opposing ideas about who really has power and who really can create change

Teachers of public writing must adopt a generous response to those who venture into this arena. Some scholars believe that to prepare students for public life, university classes should partner with grassroots community organizations rather than nonprofits that serve food or tutor students. They worry that a service-related focus will create more passive citizens who do not rally and resist or grab the attention of government leaders or corporations. With carefully contextualized study of an after-school arts program, an area soup kitchen, and parks organizations among others, Ryder shows that many so-called service organizations are not passive places at all, and she argues that the main challenge of public work is precisely that it has to take place among all of these compelling definitions of democracy. Ryder proposes teaching public writing by partnering with multiple community nonprofits. She develops a framework to help students analyze how their community partners inspire people to action and offers a course design that supports them as they convey those public ideals in community texts. But composing public texts is only part of the challenge. Traditional newspapers and magazines, through their business models and writing styles, reinforce a dominant role for citizens as thinking and reading but not necessarily acting. This civic role is also professed.
