Hunter,2004-03-17 From the early years of the African slave trade to America blacks have lived and laboured in urban environments Yet the transformation of rural blacks into a predominantly urban people is a relatively recent phenomenon only during World War One did African Americans move into cities in large numbers and only during World War Two did more blacks reside in cities than in the countryside By the early 1970s blacks had not only made the transition from rural to urban settings but were almost evenly distributed between the cities of the North and the West on the one hand and the South on the other In their quest for full citizenship rights economic democracy and release from an oppressive rural past black southerners turned to urban migration and employment in the nation s industrial sector as a new Promised Land or Flight from Egypt In order to illuminate these transformations in African American urban life this book brings together urban history contemporary social cultural and policy research and comparative perspectives on race ethnicity and nationality within and across national boundaries Writers of the Black Chicago Renaissance Steven C. contributors and editors show in *Walking in Cities* walking also reflects the systematic inequalities that order contemporary urban life. Walking has different meanings because it can be a way of temporarily taking possession of urban space or it can make the relatively powerless more vulnerable to crime. The essays in *Walking in Cities* explore how walking intersects with sociological dimensions such as gender, race, and ethnicity, social class, and power. Various chapters explore the female urban drifter in Tehran's shopping malls, Hispanic neighborhoods in New York, San Diego, and El Paso, and the intra-neighborhood and inter-class dynamics of gentrification in Greenpoint, Brooklyn. The essays in *Walking in Cities* provide important lessons about urban life.

**Professional Lives, Personal Struggles** Randall Amster, Martha Trenna Valado, 2012-07-06 This edited volume illuminates critical research issues through the particular lens of homelessness, bringing together some of the leading scholars in the field from an array of disciplines and perspectives to explore this condition of marginalization and the ethical dilemmas that arise within it. The authors provide insights into the realities and challenges of social research that will guide students, activists, practitioners, policymakers, and service providers as well as both novice and seasoned researchers in fields of inquiry ranging from anthropology and sociology to geography and cultural studies. Although many texts have explored the subject of homelessness, few have attempted to encapsulate and examine the complex process of researching the issue as a phenomenon unto itself. *Professional Lives, Personal Struggles* examines the many challenges of conducting ethical research on homelessness as well as the potential for positive change and transformation through the deeply personal accounts of scholars and advocates with extensive experience working in the field.

**Rhetorics for Community Action** Phyllis Mentzell Ryder,2012-07-10 Rhetorics for Community Action Public Writing and Writing Publics by Phyllis Mentzell Ryder offers theory and pedagogy to introduce public writing as a complex political and creative action To write public texts we have to invent the public we wish to address Such invention is a complex task with many components to consider exigency that brings people together a sense of agency and capacity a sense of how the world is and what it can become All these components constantly compete against texts that put forward other public ideals opposing ideas about who really has power and who really can create change Teachers of public writing must adopt a generous response to those who venture into this arena Some scholars believe that to prepare students for public life university classes should partner with grassroots community organizations rather than nonprofits that serve food or tutor students They worry that a service related focus will create more passive citizens who do not rally and resist or grab the attention of government leaders or corporations With carefully contextualized study of an after school arts program an area soup kitchen and parks organizations among others Ryder shows that many so called service organizations are not passive places at all and she argues that the main challenge of public work is precisely that it has to take place among all of these compelling definitions of democracy Ryder proposes teaching public writing by partnering with multiple community nonprofits She develops a framework to help students analyze how their community partners inspire people to action and offers a course design that support them as they convey those public ideals in community texts But composing public texts is only part of the challenge Traditional newspapers and magazines through their business models and writing styles reinforce a dominant role for citizens as thinking and reading but not necessarily acting This civic role is also professed

**Queer Clout** Timothy Stewart-Winter,2016-02-16 Queer Clout weaves together activism and electoral politics to trace the gay movement s path since the 1950s in Chicago Stewart Winter stresses gay people s and African Americans shared focus on police harassment highlighting how black political leaders enabled white gays and lesbians to join an emerging liberal coalition in city hall

**Cracks in the Pavement** Martin Sanchez-Jankowski,2008-09-02 Woven throughout with rich details of everyday life this original on the ground study of poor neighborhoods challenges much prevailing wisdom about urban poverty shedding new light on the people institutions and culture in these communities Over the course of nearly a decade Mart n S nchez Jankowski immersed himself in life in neighborhoods in New York and Los Angeles to investigate how social change and social preservation transpire among the urban poor Looking at five community mainstays the housing project the small grocery store the barbershop and the beauty salon the gang and the local high school he discovered how these

institutions provide a sense of order continuity and stability in places often thought to be chaotic disorganized and disheartened His provocative and ground breaking study provides new data on urban poverty and also advances a new theory of how poor neighborhoods function illuminating the creativity and resilience that characterize the lives of those who experience the hardships associated with economic deprivation

### **Drill Rap, Sex Work, and the Digital Underground**

Jabari M. Evans, 2024-10-15 In this book Jabari Evans examines Chicago's controversial Drill rap scene and the always on nature of social media for these musicians who are often tasked with maintaining constant connection across multiple platforms in order to both affirm their street authenticity locally and promote themselves to an imagined audience of global Hip Hop fans Drawing on empirical studies ethnographic fieldwork and prominent members of Chicago's Hip Hop scene Evans explores the role of social media as an economic resource supporting artistic labor and the implications both positive and negative of relying on these platforms for success Clout a term heavily used by Drill rappers refers to the way their influence on social media is measured according to numeric metrics including likes views reposts and followers Ultimately Evans argues that while Black youth of Drill effectively use Hip Hop cultural norms to harness the power of clout and gain individual celebrity this success comes with ambivalence over unwanted surveillance of their private lives and the need to rely on negative stereotypes as central to their identities

### **Race, Crime, and Policing in the Jim Crow South** Brandon T.

Jett, 2021-07-07 Winner of the Florida Book Award general nonfiction category Throughout the Jim Crow era southern police departments played a vital role in the maintenance of white supremacy Police targeted African Americans through an array of actions including violent interactions unjust arrests and the enforcement of segregation laws and customs Scholars have devoted much attention to law enforcement's use of aggression and brutality as a means of maintaining African American subordination While these interpretations are vital to the broader understanding of police and minority relations Black citizens have often come off as powerless in their encounters with law enforcement Brandon T Jett's *Race Crime and Policing in the Jim Crow South* by contrast reveals previously unrecognized efforts by African Americans to use manage and exploit policing In the process Jett exposes a much more complex relationship suggesting that while violence or the threat of violence shaped police and minority relations it did not define all interactions Black residents of southern cities repeatedly complained about violent policing strategies and law enforcement's seeming lack of interest in crimes committed against African Americans These criticisms notwithstanding Blacks also voiced a desire for the police to become more involved in their communities to reduce the seemingly intractable problem of crime much of which resulted from racial discrimination and other structural factors related to Jim Crow Although the actions of the police were problematic African Americans nonetheless believed that law enforcement could play a role in reducing crime in their communities During the first half of the twentieth century Black citizens repeatedly demanded better policing and engaged in behaviors designed to extract services from law enforcement officers in Black neighborhoods as part of a broader strategy to make their communities safer

By examining the myriad ways in which African Americans influenced the police to serve the interests of the Black community Jett adds a new layer to our understanding of race relations in the urban South in the Jim Crow era and contributes to current debates around the relationship between the police and minorities in the United States **Belighted Fiction** Eckhard Gerdes, 2001-05-29 In a literary world where we see the constant rush of lemmings diving gleefully off cliffs into the seas of mediocrity and convention it is refreshing to find that there are creative writers out there who are willing to keep the lighthouse of the avant garde lit In this collection one finds fiction fulfilling its core purposes to warn to enlighten to illuminate As editor Eckhard Gerdes says in his foreword if you're looking for conventions buy yourself a fez What you'll find here is thought provoking and emotive work charged with the spirit of delight and wonder as each new possibility is uncovered This is without a doubt some of the best writing of our times The works in this collection can rub elbows with the great and hold their own If there is an afterlife James Joyce Gertrude Stein Virginia Woolf Richard Brautigan Italo Calvino Laurence Sterne Donald Barthelme William S Burroughs Kathy Acker Samuel Beckett Kenneth Patchen and Eugene Ionesco are all looking at this work and are nodding and smiling Cultural Processes in Child Development Ann S. Masten, 1999-02 This volume explores cultural issues in child development which have come to be considered primary cross cutting factors in every aspect of development For cross cultural social and developmental psychologists anthropologists and sociologists

**Bringing Fieldwork Back In** Elijah Anderson, 2012-06-21 In 2001 the first of a series of ethnographic conferences took place in Los Angeles with an emphasis on fieldwork Since then the field has gained a much larger disciplinary footprint While the increase in substantial research in the field has risen dramatically ethnographic styles of writing have emerged that fail to include much discernible fieldwork This volume of *The Annals* broaches the subject of improving fieldwork in the ethnographic spectrum through old fashioned or shoe leather fieldwork At a more recent ethnographic conference at Yale University in 2010 with a follow up in June 2011 emerging ethnographers were mentored by senior scholars in which they presented an informal yet supportive setting where ethnographic fieldwork could be constructively critiqued This volume is a product of those collective efforts The articles in this volume include insight into relations among affluent minorities the status system we find in today's sports and a portrait of an employer of undocumented workers among other articles This volume will appeal to both undergraduate and graduate students with a wide range of interests including sociology education anthropology and race and gender conflicts and problems **Clearinghouse Review**, 1992
