## **Stress At Work A Sociological Perspective:**

**Stress at Work** Chris Peterson, 2018-10-26 This book provides a theoretical background to occupational stress and traces the early work of Hans Selye and the development of bio physiological psychological and then sociological models of stress It also reports on a study of stress and ill health in a large manufacturing organisation in Australia It examines the effects of stress low self esteem and poor mastery on psychological outcomes and ill health symptoms Work Stress Chris Peterson, 2018-12-20 Sociologists and health experts from the U K Scandinavia Australia and the U S discuss issues surrounding stress in the workplace including its causes and ways in which jobs can be designed to minimize it The book is intended for professionals and students in occupational health and safety Work and Mental Health in Social Context Mark Tausig, Rudy Fenwick, 2011-09-08 Anyone who has ever had a job has probably experienced work related stress at some point or another For many workers however job related stress is experienced every day and reaches more extreme levels Four in ten American workers say that their jobs are very or extremely stressful Job stress is recognized as an epidemic in the workplace and its economic and health care costs are staggering by some estimates over 1 billion per year in lost productivity absenteeism and worker turnover and at least that much in treating its health effects ranging from anxiety and psychological depression to cardiovascular disease and hypertension Why are so many American workers so stressed out by their jobs Many psychologists say stress is the result of a mismatch between the characteristics of a job and the personality of the worker Many management consultants propose reducing stress by redesigning jobs and developing better individual strategies for coping with their stress But these explanations are not the whole story They don't explain why some jobs and some occupations are more stressful than other jobs and occupations regardless of the personalities and coping strategies of individual workers Why do auto assembly line workers and air traffic controllers report more job stress than university professors self employed business owners or corporate managers yes managers The authors of Work and Mental Health in Social Context take a different approach to understanding the causes of job stress Job stress is systematically created by the characteristics of the jobs themselves by the workers occupation the organizations in which they work their placements in different labor markets and by broader social economic and institutional structures processes and events And disparities in job stress are systematically determined in much the same way as are other disparities in health income and mobility opportunities In taking this approach the authors draw on the observations and insights from a diverse field of sociological and economic theories and research These go back to the nineteenth century writings of Marx Weber and Durkheim on the relationship between work and well being They also include the more contemporary work in organizational sociology structural labor market research from sociology and economics research on unemployment and economic cycles and research on institutional environments This has allowed the authors to develop a unified framework that extends sociological models of income inequality and status attainment or allocation to the explanation of non economic health related outcomes

of work Using a multi level structural model this timely and comprehensive volume explores what is stressful about work and why specifically address these and questions and more What characteristics of jobs are the most stressful what characteristics reduce stress Why do work organizations structure some jobs to be highly stressful and some jobs to be much less stressful Is work in a bureaucracy really more stressful How is occupational status occupational power and authority related to the stressfulness of work How does the segmentation of labor markets by occupation industry race gender and citizenship maintain disparities in job stress Why is unemployment stressful to workers who don t lose their jobs How do public policies on employment status collective bargaining overtime affect job stress Is work in the current Post neo Fordist era of work more or less stressful than work during the Fordist era In addition to providing a new way to understand the sociological causes of job stress and mentalhealth the model that the authors provide has broad applications to further study of this important area of research This volume will be of key interest to sociologists and other researchers studying social stratification public health political economy institutional and organizational theory
