*Spiritual Tattoo* John A. Rush, 2005-03-17 Say body modifications and most people think of tattoos and piercings They associate these mainly with the urban primitives of the 1980s to today and with primitive tribes In fact as this fascinating book shows body mods have been

on the scene since ancient times traceable as far back as 15 million years and they also encompass sacrifice branding and implants Professor John Rush outlines the processes and procedures of these radical physical alterations showing their function as rites of passage group identifiers and mechanisms of social control He explores the use of pain for spiritual purposes such as purging sin and guilt and examines the phenomenon of accidental cuts and punctures as individual events with sometimes profound implications for group survival Spiritual Tattoo finds a remarkable consistency in body modifications from prehistory to the present suggesting the importance of the body as a sacred geography from both social and psychological points of view

**Failed God** John A. Rush, 2019-04-16 On a 2001 trip to the cathedrals of Europe anthropologist John Rush and his wife entered St Mark's Basilica in Venice and encountered a mosaic depicting Jesus surrounded by mushrooms with an Amanita muscaria cap in his hand Examining the space with new eyes they discovered images of mushrooms and mind altering plants all over the Basilica Intrigued Dr Rush spent seven years researching and reflecting on the profound effects hallucinogens had on the founding of all three major Western religions He concluded that Judaism Christianity and

Islam are political constructions evolving out of the use of not only Amanita muscaria but a plethora of mind altering substances Failed God Fractured Myth in a Fragile World re examines the scriptural stories of Judaism Christianity and Islam as told in the Bible and Qur an and reveals them as concocted mythical charters stemming from drug induced romps with the super natural Rush shows how mind altering substances played an instrumental role in the birth and development of Western religions and explains how they contributed to reports of prophetic experiences including angry and disturbing messages from the divine With chapters on Judaism Christianity and Islam Rush fully addresses the effects of mind altering substances on each tradition convincingly discrediting the idea that they stem from actual human interaction with the divine He also shows how an intoxicated and over zealous Apostle Paul corrupted Jesus s simple message of human decency forming an oppressive religious system based on fear In a thought provoking conclusion Rush asks how we can continue to attribute authority to traditions that were so clearly irrationally founded and incompatible with today s world [Forthcoming Books](#)
