beautifully and clearly Naval Historical Foundation The fact that German submarines almost managed to cut off Britain's vital imports during the First World War hadn't been forgotten by Hitler and when in 1935 he repudiated the Treaty of Versailles Britain magnanimously signed an Anglo German Naval Agreement This allowed the Germans to build their submarine strength up to one third of the Royal Navy's tonnage When war broke out in 1939 German U boats went quickly into action but with only four years of production and development the main armament of these submarines was considerably weaker than equivalent boats in other navies and many other features such as living conditions were also significantly inferior Yet the German U boat onslaught against British merchant ships in autumn 1940 was highly successful because the attacks were made on the surface at night and from such close range that a single torpedo would sink a ship Soon though Allied technology was able to detect U boats at night and new convoy techniques combined with powerfully armed fast modern aircraft searching the seas meant that by 1941 it was clear that Germany was losing the war at sea Something had to be done The new generation of attack U boats that had been introduced since Hitler came to power needed urgent improvement This is the story of the Types II VII and IX that had already become the workhorse of the Kriegsmarine's submarine fleet and continued to put out to sea to attack Allied shipping right up to the end of the war The Type II was a small coastal boat that struggled to reach the Atlantic the Type VII was perfectly at home there but lacked the technology to tackle well protected convoys while the Type IX was a long range variety modified so it could operate in the Indian Ocean This book by the renowned Kriegsmarine historian explores these attack U boats at length including details of their armament capabilities and crew facilities the story of their development and operational history and just what it was like to operate such a vessel *The Submarine Hunters* Percy F.
