strategic planning process as well as the key players The book is unique in that it uses the wisdom contained in African proverbs and folktales to discuss the stages of the strategic planning process and roles and responsibilities of players in the process Being metaphors proverbs and folktales often bring out more lucidly the meanings embodied in the normally arcane language of strategic planning Proverbs and folktales also create strong mental pictures which are often very effective in impressing ideas upon people s minds communicating them at a deeper level and motivating them to action The book is based on research tested use of the proverbs and folktales in strategic planning practice in different contexts in combination with the author s experience as a professional organization development OD consultant It will be especially useful to students teachers executives board members and all players in international development community development organizational development international businesses and African Studies Volunteers and expatriates working Africa and other developing regions will equally find the book useful as it provides insight into the culture and mode of thinking of the people they work with

Managing Nongovernmental Organizations Frederik Claeyé, 2014-03-26 The idea that international development aid needs to be better managed and coordinated gained currency in the early 1990s The increasing emphasis on management has resulted in the present vogue of managing for development results as one of the central tenets in the discourse on international aid But how appropriate are these ideas tools and techniques for non governmental development organizations NGOs and how much does geographic context matter Examining the current debate on aid effectiveness and the role of NGOs in contributing to it this book highlights the critical importance of understanding how the global and the local interact to increase aid efficacy and develop more culturally astute ways of managing NGOs With a focus on NGOs active in sub Saharan Africa as case studies author Frederik Claey demonstrates that NGOs are not mere passive recipients of management knowledge and practices emanating from the global governance structure of international aid but actively engage with these ideas and practices to translate and rework them through a local cultural lens This process results in the emergence of unique hybrid management systems that combine the pressure to become more business like with the mission to satisfy the demands of the communities they serve

International Politics of HIV/AIDS Hakan Seckinelgin, 2007-08-07 This book examines the global governance of the HIV AIDS epidemic interrogating the role of this international system and global discourse on HIV AIDS interventions The geographical focus is Sub Saharan Africa since the region has been at the forefront of these interventions There is a need to understand the relationship between the international political environment and the impact of resulting policies on HIV AIDS in the context of people s lives Hakan Seckinelgin points out a certain disjuncture between this governance structures and the way people experience the disease in their everyday lives Although the structure allows people to emerge as policy relevant target groups and beneficiaries the articulation of needs and design of policy interventions tends to reflect international priorities rather than people s thinking on the problem In other words he argues that while the international interventions highlight the importance attributed to the HIV AIDS problem the nature of the system does not allow interventions to be far reaching and sustainable Offering a critical contribution to the understanding of the problems in HIV AIDS in Sub Saharan Africa International Politics of HIV AIDS will be invaluable to students and researchers of health international politics and development

Corporate Management Ecosystem in Emerging Economies Fred A. Yamoah, Adnan ul Haque, 2023-12-20. Emerging economies as actively changing societies invoke questions about the future direction for national and global development as well as equitable economic growth. In this book, the Editors argue that understanding the corporate management ecosystem of emerging economies is key to business success in the globalized economy. Discussing the key attributes of emerging economies, for example, population dynamics, labour and production patterns, employment, and foreign direct investment, and the connection with governance, marketing, innovation, management, and supply chain, research and practice, the book highlights the distinctiveness of corporate management dynamics in comparison with existing knowledge that is dominated by developed country frameworks. The book offers twenty-one case studies that cover examples of corporate management research and practice in both local and international companies, making this a valuable resource for students, academics, and industry stakeholders.

Working for Change Derick W. Brinkerhoff, Jennifer M. Brinkerhoff, 2005. A Foreword Magazine Book of the Year Finalist for 2005. Focuses on development management positions in international service employment. Devises the concept of the service choice spiral in career evolution. Provides information about volunteer and professional opportunities, organizations, and degree programs. In *Working for Change*, Derick and Jennifer Brinkerhoff explore career paths in international public service, focusing on development management positions. They offer practical and inspiring guidance on finding the right mix of public service objectives, degree programs, job opportunities, and personal lifestyle choices. The Brinkerhoffs' concept of career evolution is encapsulated in a framework they call the service choice spiral. This model rejects standard set-the-goal-plot-the-steps planning and pulls one's personal values, skills, professional goals, and sense of altruism into a solid career choice. Through profiles of six public service professionals, the Brinkerhoffs illustrate how real people have faced the choices that confronted them in the course of their careers. *Working for Change* will assuredly become the ideal guide and resource for anyone considering work in public service and mid-career professionals looking for a change.
