The Power and the People Charles Tripp, 2013-02-25 This book is about power The power wielded over others by absolute monarchs tyrannical totalitarian regimes and military occupiers and the power of the people who resist and deny their rulers claims to that authority by whatever means The extraordinary events in the Middle East in 2011 offered a vivid example of how non violent demonstration can topple seemingly invincible rulers This book considers the ways in which the people have united to unseat their oppressors and fight against the status quo and probes the relationship between power and forms of resistance It also examines how common experiences of violence and repression create new collective identities This brilliant yet unsettling book affords a panoramic view of the twentieth and twenty first century Middle East through occupation oppression and political resistance

The Eastern Mediterranean and the Making of Global Radicalism, 1860-1914 Ilham Khuri-Makdisi, 2013-08-03 In this groundbreaking book Ilham Khuri Makdisi establishes the existence of a special radical trajectory spanning four continents and linking Beirut Cairo and Alexandria between 1860 and 1914 She shows that socialist and anarchist ideas were regularly discussed disseminated and reworked among intellectuals workers dramatists Egyptians Ottoman Syrians ethnic Italians Greeks and many others in these cities In situating the Middle East within the context of world history Khuri Makdisi challenges nationalist and elite narratives of Mediterranean and Middle Eastern history as well as Eurocentric ideas about global radical movements The book demonstrates that these radical trajectories played a fundamental role in shaping societies throughout the world and offers a powerful rethinking of Ottoman intellectual and social history

Ordinary Egyptians Ziad Fahmy, 2011-05-31 Examines how popular media and culture provided ordinary Egyptians with a framework to construct and negotiate a modern national identity

Lord Cromer Roger Owen, 2004 In the heyday of Empire just before the First World War Lord Cromer was second only to Lord Curzon in fame and public esteem In the days when Cairo and Calcutta represented the twin poles of British power in Asia and Africa Cromer's commanding presence seemed to radiate the essential spirit of imperial rule In this first modern biography Roger Owen charts the life of the man revered by the British and hated by today's Egyptians the real ruler of Egypt for nearly a quarter of a century A member of the famous City banking family of Baring Brothers Cromer in his youth seemed to be distinguished mainly by lack of academic ability and a taste for the fashionable pursuits of his day His first military posting to Corfu was welcomed by him on account of the excellent shooting to be had in the region Roger Owen shows how almost imperceptibly his commitment to public service grew due in part at least to his relationship with Ethel Errington who after long delay became his first wife From the island outposts of the old British Empire to India the jewel in its crown and finally to the new Empire in Africa Cromer represented the might of

Britain's Empire Few imperial administrators had either his range of experience or his long practice of ruling different non-European peoples at a time when the whole notion of Empire itself entered more and more into the metropolitan political debate. Roger Owen makes extensive use of Cromer's official correspondence, family papers, memoirs, and the personal letters of his friends and colleagues to explore all aspects of Cromer's life in imperial government. He examines his innovative role in international finance and his energetic re-engagement with Britain's troubled political life following his formal retirement in 1907. Finally, he assesses the sometimes bitter legacy of imperial rule left by Cromer. Street Sounds Ziad

Fahmy, 2020-08-25 As the twentieth century roared on, transformative technologies from trains, trams, and automobiles to radios and loudspeakers fundamentally changed the sounds of the Egyptian streets. The cacophony of everyday life grew louder, and the Egyptian press featured editorials calling for the regulation of not only mechanized and amplified sounds but also the voices of street vendors, the music of wedding processions, and even the traditional funerary wails. Ziad Fahmy offers the first historical examination of the changing soundscapes of urban Egypt, highlighting the mundane sounds of street life while listening to the voices of ordinary people as they struggle with state authorities for ownership of the streets. Interweaving infrastructural, cultural, and social history, Fahmy analyzes the sounds of modernity using sounded sources as an analytical tool for examining the past. Street Sounds also reveals a political dimension of noise by demonstrating how the growing middle classes used sound to distinguish themselves from the Egyptian masses. This book contextualizes sound layering historical analysis with a sensory dimension, bringing us closer to the Egyptian streets as lived and embodied by everyday people. Composing Egypt Hoda A. Yousef, 2016-06-22

In this innovative history of reading and writing, Hoda Yousef explores how the idea of literacy and its practices fundamentally altered the social fabric of Egypt at the turn of the twentieth century. She traces how nationalists, Islamic modernists, bureaucrats, journalists, and early feminists sought to reform reading habits, writing styles, and the Arabic language itself in their hopes that the right kind of literacy practices would create the right kind of Egyptians. The impact of new reading and writing practices went well beyond the elites and the newly literate of Egyptian society, and this book reveals the increasingly ubiquitous reading and writing practices of literate, illiterate, and semi-literate Egyptians alike. Students who wrote petitions, women who frequented scribes, and communities who gathered to hear a newspaper read aloud all used various literacies to participate in social exchanges and civic negotiations regarding the most important issues of their day. Composing Egypt illustrates how reading and writing practices became not only an object of social reform but also a central medium for public exchange. Wide segments of society could engage with new ideas about nationalism, education, gender, and ultimately what it meant to be part of modern Egypt. **How**

Commerce Became Legal Omar Youssef Cheta, 2025-09-30 When Egypt's markets opened to private capital in the 1840s, a new infrastructure of commercial laws and institutions emerged. Egypt became the site of profound legal experimentation, and the resulting commercial sphere reflected the political contestations among the governors of Egypt, European consulates,

Ottoman rulers and a growing number of private entrepreneurs both foreign and local *How Commerce Became Legal* explores the legal and business practices that resulted from this fusion of Ottoman French and Islamic legal concepts and governed commerce in Egypt Focusing on the decades between the formalization of Cairo's practical autonomy within the Ottoman Empire in the 1840s and its incorporation into the British Empire in the 1880s Omar Cheta considers how modern laws redefined the commercial sphere shaping a mode of market governance that would persist for decades to come He highlights the demarcation of a new law defined commercial realm separate from the land regime and from civil or family centered exchanges and reconstructs these changes through both legal codes and state orders as well as individual merchant voices preserved in court documents As this book documents both individual experiences and structural explanations it offers a rare perspective on the scope and reach of market governance over the mid nineteenth century revealing changes simultaneously from within and without state institutions
