Catalog of the American Music Center Library: Chamber music American Music Center (New York, N.Y.). Library, 1978 *Compositional Process in Elliott Carter's String Quartets* Laura Emmery, 2019-11-21 *Compositional Process in Elliott Carter's String Quartets* is an interdisciplinary study examining the evolution and compositional process in Elliott Carter's five string quartets. Offering a systematic and logical way of unpacking concepts and processes in these quartets that would otherwise remain opaque, the book's narrative reveals new aspects of understanding these works and draws novel conclusions on their collective meaning and Carter's place as the leading American modernist. Each of Carter's five string quartets is driven by a new idea that Carter was exploring during a particular period, which allows for each quartet to be examined under a unique lens and a deeper understanding of his oeuvre at large. Drawing on key ideas from a variety of subjects including performance studies, philosophy, music cognition, musical meaning and semantics, literary criticism and critical theory, this is an informative volume for scholars and researchers in the areas of music theory and musicology. Analyses are supplemented with sketch, study, correspondence, text, manuscripts and other archival sources from the Paul Sacher Stiftung, the Library of Congress and the New York Public Library. *Brahms and the Scherzo* Ryan McClelland, 2016-04-15 Despite the incredible diversity in Brahms's scherzo-type movements, there has been no comprehensive consideration of this aspect of his oeuvre. Professor Ryan McClelland provides an in-depth study of these movements that also contributes significantly to an understanding of Brahms's compositional language and his creative dialogue with musical traditions. McClelland especially highlights the role of rhythmic metric design in Brahms's music and its relationship to expressive meaning. In Brahms's scherzo-type movements, McClelland traces transformations of primary thematic material, demonstrating how the relationship of the initial music to its subsequent versions creates a musical narrative that provides structural coherence and generates expressive meaning. McClelland's interpretations of the expressive implications of Brahms's fascinatingly intricate musical structures frequently engage issues directly relevant to performance. This illuminating book will appeal to music theorists, musicologists, working on nineteenth-century instrumental music and performers. *Breaking Time's Arrow* Matthew McDonald, 2014-06-16 A critical look at the work of and philosophical influences upon the American Modernist composer Charles Ives. 1874-1954 moved traditional compositional practice in new directions by incorporating modern and innovative techniques with nostalgic borrowings of 19th-century American popular music and Protestant hymns. Matthew McDonald argues that the influence of Emerson and Thoreau on Ives's compositional style freed the composer from ordinary ideas of time and chronology, allowing him to recuperate the past as he reached for the musical unknown. McDonald links this concept of the multi-temporal in Ives's works to Transcendentalist understandings of eternity. His approach to Ives opens new avenues for inquiry into the composer's eclectic and complex style. A trenchant and intellectually expansive reading of Ives's relationship to time by connecting several compositions and

indeed the composer's larger conceptualization of the past present and future to the Emersonian concept of the everlasting Now This book is a wonderfully written important contribution to scholarship on the music of Charles Ives Gayle Sherwood Magee author of *Charles Ives Reconsidered* McDonald investigates both the temporal and spatial effects of multidirectional motion as well as its ramifications for understanding some of the larger philosophical issues that are raised in Ives's music Music Letters May 2015 McDonald brings together analytic and personal factors to sharpen the image of the composer in convincing ways This book deserves a close reading The bibliography provides a select list of scores and recordings as well as articles books catalogues and unpublished commentaries This book is recommended for college and university libraries and for readers with a music theory background Music Reference Services Quarterly

Arlin,Mark A. Radice,2018-04-17 The displacement of Chou Wen chung from his native China in 1948 forced him into Western European culture. Ultimately finding his vocation as a composer he familiarized himself with classical and contemporary techniques but interpreted these through his traditionally oriented Chinese cultural perspective. The result has been the composition of a unique body of repertoire that synthesizes the most progressive Western compositional idioms with an astonishingly traditional heritage of Asian approaches not only from music but also from calligraphy landscape painting poetry and more. Chou's importance rests not only in his compositions but also in his widespread influence through his extensive teaching career at Columbia University where his many students included Bright Sheng Zhou Long Tan Dun Chen Yi Joan Tower and many more. During his tenure at Columbia he also founded the U S China Arts Exchange which continues to this day to be a vital stimulus for multicultural interaction. The volume will include an inventory of the Chou collection in the Paul Sacher Stiftung in Basel Switzerland **International Who's who in Music and Musicians' Directory** David M. Copyright Office,1951 *Heinrich Schenker and Beethoven's 'Hammerklavier' Sonata* Nicholas Marston,2017-07-05 In 1912 Heinrich Schenker contracted with the Viennese publisher Universal Edition to provide an elucidatory edition. Erl erungsausgabe of Beethoven's last five piano sonatas. Each publication would comprise a score newly edited by Schenker and using the composer's autograph manuscript as principal source together with a substantial commentary combining analytical text critical and performance related matter. Four of the five editions appeared between 1913 and 1921 but that of the Hammerklavier Sonata op 106 was never published. It has generally been assumed that this was simply because Schenker was unable to locate the autograph manuscript which remains missing to this day. But as Nicholas Marston shows in a detailed history of the Erl erungsausgabe project other factors were involved also including financial considerations Schenker's health concerns and his broader theoretical ambitions. Moreover despite the missing autograph he nevertheless developed a voice leading analysis of the complete sonata during the years 1924 1926 a crucial

period in the development of his mature theory of tonal music Marston's book provides the first in depth study of this rich analysis which is reproduced in full in high quality digital images The book draws on hundreds of letters and documents from Schenker's Nachlaß it both adds to our biographical knowledge of Schenker and illuminates for the first time the response of this giant of music theory to one of the most significant masterworks in all music
