String Of Beginnings Intermittent Memoirs 19241954 String Of Beginnings:

String of Beginnings Michael Hamburger,1991 A witty and thoughtful account of the author's journeys and friendships *String of Beginnings* opens with the description of his childhood in Weimar Germany Then following the Nazis rise to power Michael Hamburger's family moved to Britain as a refugee from the age of nine he had to find a place for himself not only in a new country but also in a new language This is the frank and entertaining story of the early life of one of the most powerful poets and translators working today *Germans as Victims in the Literary Fiction of the Berlin Republic* Stuart Taberner,Karina Berger,2009 An opening section on the 1950s a decade of intense literary engagement with German victimhood before the focus shifted to German perpetration provides context drawing parallels but also noting differences between the immediate postwar period and today The second section focuses on key texts written since the mid 1990s and examines shifts in perspectives on the Nazi past on perpetration and victimhood on ordinary Germans and on the balance between historical empathy and condemnation **BOOK JACKET** *Anarchist Seeds beneath the Snow* David Goodway,2011-12-12 From William Morris to Oscar Wilde to George Orwell left libertarian thought has long been an important but neglected part of British cultural and political history In *Anarchist Seeds beneath the Snow* David Goodway seeks to recover and revitalize that indigenous anarchist tradition This book succeeds as simultaneously a cultural history of left libertarian thought in Britain and a demonstration of the applicability of that history to current politics Goodway argues that a recovered anarchist tradition could and should be a touchstone for contemporary political radicals Moving seamlessly from Aldous Huxley and Colin Ward to the war in Iraq this challenging volume will energize leftist movements throughout the world *Strangers Arrive* Leonard Bell,2017-11-17 None of us had the faintest idea where we were going but during 1938-39 the town Christchurch was made strangely interesting for anyone like myself with the scattered arrival of the refugees All at once there were people among us who were actually from Vienna or Chemnitz or Berlin who knew the work of Schoenberg and Gropius Anthony Alpers 1985 From the 1930s through the 1950s a substantial number of forced migrants refugees from Nazism displaced people after World War II and escapees from Communist countries arrived in New Zealand from Europe Among them were an extraordinary group of artists and writers photographers and architects whose European modernism radically reshaped the arts in this country In words and pictures *Strangers Arrive* tells their story Ranging across the arts from photographer Irene Koppel to art dealer and printmaker Kees Hos architect Imric Porsolt to writer Antigone Kefala Leonard Bell takes us inside New Zealand's bookstores and coffeehouses studios and galleries to introduce us to a compelling body of artistic work He asks key questions How were migrants received by New Zealanders How did displacement and settlement in New Zealand transform their work How did the arrival of European modernists intersect with the burgeoning nationalist movement in the arts in New Zealand *Strangers Arrive* introduces us to a talented group of aliens who were critical catalysts for change in New Zealand culture **German-Speaking Exiles in Great Britain** ,2023-12-14

Late Style and its Discontents Gordon McMullan, Sam Smiles, 2016-10-06 Late style is a critical term routinely deployed to characterise the work of selected authors composers and creative artists as they enter their last phase of production often but not only in old age Taken at face value this terminology merely points to a chronological division in the artist s oeuvre late being the antonym of early or the third term in the triad early middle late However almost from its inception the idea of late style or

late work has been freighted with aesthetic associations and expectations that promote it as a special episode in the artist's creative life. Late style is often characterised as the imaginative response made by exceptional talents to the imminence of their death. In their confrontation with death, creative artists, critics claim, produce work that is by turns a determination to continue while strength remains, a summation of their life's work and a radical vision of the essence of their craft. And because this creative phenomenon is understood as primarily an existential response to a common fate, so late style is understood as something that transcends the particularities of place, time and medium. Critics seeking to understand late work regularly invoke the examples of Titian, Goethe and Beethoven as exemplars of what constitutes late work, proposing that something unites the late style of authors, composers and creative artists who otherwise would not be bracketed together, and that lateness per se is a special order of creative work. The essays in this collection resist this position. Ranging across literature, the visual arts, music and scientific work, the material assembled here looks closely at the material, biographical and other contexts in which the work was produced and seeks both to question the assumptions surrounding late style and to prompt a more critical understanding of the last works of writers, artists and composers.

W.G. Sebald Irene Heidelberger-Leonard, Mireille Tabah, 2008. W. G. Sebald, Frank Schwaborn, 2017-11-15. W. G. Sebald, der Schriftsteller und Germanist, lehrte bis zu seinem Unfalltod im Dezember 2001 Europäische Literatur an der University of East Anglia in Norwich, Grafschaft Norfolk. Vor allem in der englischsprachigen Welt gilt er vielen als der bedeutendste deutschsprachige Autor an der Wende zum 21. Jahrhundert. Autoren/Kollegen wie J. M. Coetzee, Gabriel García Márquez und Javier Marías haben sich an seiner Prosa begeistert. Is literary greatness still possible? fragte Susan Sontag. One of the few answers available to English language readers is the work of W. G. Sebald. Die vorliegende Studie stellt einen betont subjektiven Versuch dar, dem Dschungel der Bezüge nachzugehen, die seine buntgefärbten Textgespinste tragen. Sie ist keiner Theorie verpflichtet und läuft auf keine These hinaus. Sie versteht sich ebenso als Beitrag zur Sebaldforschung wie als Handreichung an den Sebaldleser. Sie sucht die fünf literarischen Werke, die zu seinen Lebzeiten erschienen sind, auf eher lockere, essayistische Art zu kommentieren, bemerkt um Textnähe und Blick auf die Details. Es ist erstaunlich, wie viel Neues sich trotz all der Forschungsflut zu diesem Autor immer noch entdecken lässt.
